2017-NY-0001-001-A	5/18/2017	HUD PIH's Required Conversion Program Was Not Adequately Implemented	In Process	<p>We recommend that HUD's Deputy Assistant Secretary for Public Housing Investments direct staff to determine whether the nine PHAs that were classified as troubled or physically substandard have public housing developments that are subject to the required conversion requirements to support whether potentially distressed projects should be converted to tenant-based rental assistance. If conversion is required, ensure that it is accomplished timely, thereby ensuring that up to \$75,540,916 is used effectively for other projects that are cost effective and have long term viability and ensuring that residents receive other rental assistance.</p> <p>Footnote: The \$75 million cited as funds to be put to better use is based on an analysis of available data. We recognize that the 131 PHAs cited in this report, including the 9 PHAs that comprise the \$75 million figure, may not have projects with at least 250 units on one or more contiguous sites that have vacancy rates of 12 percent or more. However, the data did not allow us to calculate vacancy rates for each group of contiguous units, and HUD could not provide a reasonable, supported method to identify projects subject to required conversion. To address this recommendation, HUD will need to determine whether these PHAs have projects that are subject to required conversion.</p>	12/31/2023
