Vineland, New Jersey, 08362-1508
Amount of Award: \$1,423,995
Contact: Joseph Bullock
(856) 794-4000**

Vineland, New Jersey

The City of Vineland will be awarded \$1,423,995. The City of Vineland is the lead agency and a partner with the cities of Bridgeton, and Millville, the Cumberland County Health Department (CLEAR) and the Tri-County Community Action Agency, Inc. This partnership of city and county organizations will conduct remediation projects with the goal of reducing lead exposure to children in Cumberland County.

The City intends on providing lead hazard control intervention services in approximately 190 units within the three cities where the majority of the older deteriorating housing exists. Training of residents and/or contractors to be lead workers, lead supervisors, or lead-safe work practitioners will be provided with the goal that they can be employed in a local welfare-to-work program to effectively provide a community solution to a community problem. The Tri-County Community Action Agency will engage in a citywide education and outreach campaign to raise awareness of the dangers of lead-based paint hazards and encourage families to have their young children tested for lead poisoning.

The partners will provide \$763,800 in local matching funds.
