**Salt Lake County, Utah**

Salt Lake County, Utah will be awarded \$1,296,000 to implement a comprehensive lead-based paint hazard control program. This program is the result of efforts by the Salt Lake County Office of Community Resources and Development, the Salt Lake Valley Health Department and Salt Lake City to form a Lead-Based Hazard Control Coalition to coordinate services. The program's three components include "A Lead Free Kids" Childhood Lead Poisoning Prevention Program, the rehabilitation of very low-income rental units, and lead hazard control in conjunction with housing rehabilitation programs. Approximately 180 housing units will be assisted by the program.

The Salt Lake County Lead-Based Hazard Control Coalition will provide approximately \$3,203,251 in local in-kind matching funds.
