OPTIMAL UTILIZATION OF HCV VOUCHERS

No. 2 of the 3 Priorities of the Honolulu Hub Office of Public Housing
Part of Goals 2 & 3 of HUD's Strategic Plan Goals

The Office of Public Housing and Voucher Programs (OPHVP) from HUD Headquarters (HQ) and the Honolulu Field Office jointly monitor the Housing Choice Voucher (HCV) program to ensure that Public Housing Agencies (PHA) appropriately use and manage their annual budget authority (ABA) to maximize leasing up to their units months approved (UMA) cap.

Important foci of these efforts are:
1. Eliminate funding shortfalls and voucher over-utilization; and
2. Identify leasing opportunities and work with PHAs to create operational plans that increase units months leased (UML).

While optimizing HCV leasing is a part of OPHVP’s and HUD Field Office’s normal responsibilities, these efforts have taken on new importance under the Department’s Strategic Plan for FY 2010-2011. By the end of FY 2011, HUD programs will need to increase the number of affordable units under lease by 207,000. Specifically, an additional 112,304 Housing Choice Vouchers will need to be leased by the end of FY 2011.

OPHVP and the Honolulu Hub Office of Public Housing analyze Hawaii Region PHAs HAP budget utilization levels on a monthly basis to identify PHAs that are facing potential shortfalls or leasing opportunities. As result of the analysis, HUD constructs a monthly list of top 200 PHAs with the most unit potential for leasing opportunities (under-utilization), which will be targeted by OPHVP and the Honolulu Hub. If your PHA is listed on the top 200 PHA list, we will contact you for current status and future plans for the PHA to bring the utilization to a desired level.

PHAs administering HUD's Section 8 HCV Program are to ensure data submitted to the Voucher Management (VMS) and PIH Information Center (PIC) systems is accurate and current.
