

## WEATHERIZATION WORKS!

*Weatherization produces an impressive range of benefits for households and communities. Nationally, for every \$1 invested in the program, Weatherization returns \$1.39 in energy-related benefits. Weatherization measures reduce national energy consumption and dampen demand for imported oil*

The Nevada Power Comfort Savings Program is available to any Nevada Power household whose household income falls within the following minimum and maximum annual income levels.

Size of Family	Minimum Gross Annual Income	Maximum Gross Annual Income
1	\$15,315	\$25,260
2	\$20,535	\$28,860
3	\$25,755	\$32,450
4	\$30,975	\$36,060
5	\$36,195	\$51,950
6	\$41,415	\$55,800
7	\$46,635	\$59,650
8	\$51,855	\$63,500

The **Comfort Savings** Weatherization Program is available **FREE OF CHARGE** to income-qualified customers of Nevada Power Company. **Comfort Savings** employs professionally trained technicians who use field tested protocol and advanced diagnostic equipment, to determine the most cost-effective energy-savings measures appropriate for each home. **Comfort Savings** technicians also test heating units and appliances for dangerous carbon monoxide emissions or gas leaks.

Typical **Comfort Savings** services include installing insulation in the attic or crawl space; stopping heat loss through windows, doors, and other infiltration points; heating and air conditioning service; and AC tune ups. **Comfort Savings**

customers are also educated on basic energy-efficiency practices and provided with free literature.

Nevada Power prides itself on the professionalism and courtesy of its workforce. Our team of highly skilled technicians are standing by to make your home more energy efficient, safer and more economical.
