[Docket No. FR-5593-P-01]

RIN 2577-AD01

Strengthening the Section 184 Indian Home Loan Guarantee Program

AGENCY: Office of the Assistant Secretary for Public and Indian Housing, U.S. Department of Housing and Urban Development (HUD).

ACTION: Proposed Rule.

SUMMARY: This proposed rule would revise the regulations governing the Section 184 Indian Home Loan Guarantee Program (“Section 184 Program”) to fiscally strengthen the program by clarifying rules for Lenders, Tribes, and Borrowers. As the program has experienced an increase in demand, it now requires an update to the implementing regulations to minimize potential risk and increase program participation by financial institutions. This proposed rule strives to modernize and enhance the Section 184 Program by adding participation and eligibility requirements for Lenders and other financial institutions. This proposed rule would also clarify the rules governing Tribal participation in the program, establish underwriting requirements, specify rules on the closing and endorsement process, establish stronger and clearer servicing requirements, establish program rules governing claims submitted by Servicers and paid by HUD, and add standards governing monitoring, reporting, sanctions and appeals. This rule would add new definitions and make statutory conforming amendments, including the categorical exclusion of the Section 184 program in HUD’s environmental review regulations. Ultimately, the changes made by this proposed rule would promote program sustainability,

increase Borrower protections, and provide clarity for new and existing Lenders who participate in the program.

DATES: Comment Due Date: March 6, 2023.

SUPPLEMENTARY INFORMATION:**I. Background.**

Section 184 of the Housing and Community Development Act of 1992 (Pub. L. 102–550, approved October 28, 1992) (12 U.S.C. 1715z-13a), as amended by the Native American Housing Assistance and Self-Determination Act of 1996 (Pub. L.104-330, approved October 26, 1996), the 2013 Consolidated and Further Continuing Appropriations Act (Pub. L. 113-6, approved March 26, 2013), the 2015 Consolidated and Further Continuing Appropriations Act (Pub. L. 113-235, approved December 16, 2014), and the Consolidated Appropriations Act, 2021 (Pub. L. 116-260, approved December 27, 2020) (Section 184 statute), authorize the Section 184 Program to provide access to sources of private financing to Indian families, Tribes and Tribally Designated Housing Entities (TDHEs) who otherwise could not acquire housing financing because of the unique legal status of Trust Land. The Section 184 Program provides HUD with the authority to provide access to sources of private financing for Indian families, Tribes and TDHEs that otherwise could not obtain private financing because of the unique legal status of Trust Lands by guaranteeing loans to eligible persons and entities. Since its inception, the number of loans guaranteed under the Section 184 Program has significantly increased. At the same time, the program regulations have never been substantially revised to accommodate the exponential growth of the program. Generally, improvements on Trust Land, are alienable, but conditions and restrictions apply. Consequently, financial institutions may struggle with utilizing the land interest as Security in mortgage lending transactions. To address this concern, the Section 184 Program provides a loan guarantee to approved Direct Guarantee lenders in the event of Borrower default. The guarantee is paid from the Section 184 Loan Guarantee Fund

(Fund) for up to 100 percent of the unpaid principal balance as well as any reasonable fees and expenses approved by the Secretary.

Following the enactment of Section 184 on August 18, 1994, HUD published an interim rule (59 FR 42732) codifying regulations for the Section 184 Program at 24 CFR part 955, and on March 6, 1996, HUD published a final rule (61 FR 9052). With the enactment of the Native American Housing Assistance and Self-Determination Act of 1996 (NAHASDA), HUD published a final rule on March 12, 1998, implementing NAHASDA amendments to the Section 184 Program as well as re-designating 24 CFR part 995 as 24 CFR part 1005 (63 FR 12334). On September 11, 1998, HUD published an interim final rule (63 FR 48988) establishing a direct guarantee procedure similar to that in the Direct Endorsement Program under the Federal Housing Authority (FHA) single family mortgage insurance program. The interim final rule adopted procedures that permitted HUD to review and guarantee a loan after loan closing and made minimum changes to allow for any necessary administrative actions against approved Direct Guarantee Lenders. The final rule making these changes permanent was issued on April 19, 2002 (67 FR 19491).

The Fund receives annual appropriations to cover some of the program costs and charges and an Up-Front and annual fee to the borrower to support the remaining program costs. The demand for the program has increased steadily each year. In 1995, the first year of the program, HUD guaranteed less than 20 Section 184 Guaranteed Loans. Over the last 10 years, HUD has consistently guaranteed thousands of loans worth hundreds of millions of dollars annually. To date, the Fund has guaranteed over \$7.5 billion in loans. While the program has grown exponentially, the program regulations have not been substantially revised to reflect this

significant growth. As the volume in the program increases, so does the risk to the Fund. The proposed regulations will help to mitigate the risk associated with this increased volume.

The 2013 Consolidated and Further Continuing Appropriations Act (Pub. L. 113-6, approved March 26, 2013) (2013 Appropriations Act) amended section 184(d) of the Housing and Community Development Act of 1992 to authorize HUD to increase the fee for the guarantee of loans up to 3-percent of the principal obligation of the loan and to establish and collect annual premium payments in an amount not exceeding one percent of the remaining guaranteed balance (excluding the portion of the remaining balance attributable to the fee collected at the time of the issuance of the guarantee). On March 5, 2014, HUD published a *Federal Register* Notice (79 FR 12520) announcing an increase in the one-time Loan Guarantee Fee that Borrowers pay at loan closing from a then-existing 1 percent to 1.5 percent of Guaranteed Loan amount. By *Federal Register* Notice published on October 7, 2014 (79 FR 60492), HUD exercised its new annual premium authority to implement an annual premium to the Borrower in the amount of 0.15 percent of the remaining loan balance until the unpaid principal balance, excluding the Up-Front Loan Guarantee Fee, reaches 78 percent of the lower of the initial sales price or appraised value based on the initial Amortization Schedule. By *Federal Register* Notice published on November 1, 2016 (81 FR 75836), HUD once again exercised its new annual premium authority to implement an annual premium to the Borrower in the amount of 0.25 percent of the remaining loan balance. These new fees allowed HUD to meet the current demands of the Section 184 Program.

The Consolidated and Further Continuing Appropriations Act (Pub. L. 113-235) (approved December 16, 2014) (2015 Appropriations Act) amended Section 184(h)(1)(B) of the Housing and Community Development Act of 1992 to require the exhausting of all reasonable

possibilities of collection by the Holder of the guarantee, to include a good faith consideration of loan modification, and to meet standards for servicing Section 185 Guaranteed Loans in Default, as determined by the Secretary.

The Office of Audit of the HUD Office of Inspector General (OIG) audited the Section 184 Program and issued Audit Report Number: 2015-LA-0002 on July 6, 2015. The report found that HUD did not adequately monitor, track, and evaluate participating Direct Guarantee and Non-Direct Guarantee Lenders to ensure that loans guaranteed by the program were being underwritten in accordance with the Section 184 processing guidelines. The OIG gave many recommendations, including: HUD develop and implement policies and procedures for monitoring, tracking, underwriting, and evaluating the Section 184 Program; standardize monthly delinquency reports; deny payments for claims on loans that have material underwriting deficiencies; take enforcement actions against certain Direct Guarantee and Non-Direct Guarantee Lenders; and ensure that only underwriters that are approved by HUD are underwriting Section 184 Guaranteed Loans.. The corrective action plan proposed by OIG and agreed upon by HUD includes the development of new regulations to provide additional structure to the program and a platform for policies and procedures to manage the program and address these findings.

II. This Proposed Rule

As the Section 184 Program assists more eligible Borrowers and entities, the Fund faces more program expenses and increased risk. HUD is proposing these regulatory changes to make the program sustainable, protect Borrowers, address weaknesses identified by the OIG, provide clarity for new and existing Direct Guarantee and Non-Direct Guarantee Lenders, and reduce and eliminate inappropriate and unreasonable Claim payment requests from Servicers. This

proposed rule is designed to strengthen and modernize the Section 184 Program, as well as protect the Fund. This proposed rule would enhance and fill the gap in the existing regulations by modifying and adopting industry standards and best practices, as well as relevant FHA regulations and guidance.

This proposed rule would reorganize the Section 184 Program's regulations by removing outdated sections and replacing them with the following: definitions, eligibility requirements for Lenders, rules governing participation by Indian Tribes, underwriting requirements, rules on the closing and endorsement process, loan fees, servicing requirements submission of Claims, and standards governing monitoring, reporting, sanctions and appeals.

Proposed Organization of New Part 1005

This rule proposes to divide HUD's regulations in 24 CFR part 1005 in nine subparts: Subpart A would comprise of general program requirements; Subpart B would discuss Lender and eligibility requirements; Subpart C would cover requirements for Tribal participation; Subpart D would contain underwriting requirements for eligible Borrowers, eligible Properties, and loan types; Subpart E would include requirements for closing a Section 184 Guaranteed Loan and receiving endorsement approval from HUD; Subpart F would provide the requirements for calculation, collection, and submission of the Section 184 Guaranteed Loan fees; Subpart G would cover the requirements for Servicers to manage Section 184 Guaranteed Loans and steps to take when a Section 185 Guaranteed Loan is in default; Subpart H would contain the requirements to submit Claims on Section 184 Guaranteed Loans; and Subpart I would include report requirements and sanctions to for noncompliance with Section 184 Program regulations. Unless otherwise noted in this proposed rule, HUD is proposing to codify current practices. Where a section is a new requirement, it is noted.

A. General Program Requirements (Subpart A).

Purpose § 1005.101. Section 1005.101 would address the purpose of the part 1005 regulations and provide that the regulations in part 1005 implement the Section 184 Program.

Definitions § 1005.103. The proposed rule includes definitions for the terms found in the existing Section 184 Program regulations, which HUD has revised to better reflect how the terms are currently used by the Section 184 Program or to reflect policy shifts: “Default,” “Indian,” “Property,” “Section 184,” and “Trust or Restricted Land”. In the proposed regulations, the term “Section 184” is further revised to “Section 184 Guaranteed Loan,” and the term “Trust or Restricted Land” is further revised to “Trust Land”.

The proposed rule does not include the terms “Mortgage” and “Mortgagee”, which were previously used in the existing regulation, because the terms are no longer used in the program and are obsolete. These terms are replaced by the terms “Loan” and “Lender,” respectively, as currently proposed in § 1005.103.

Additionally, HUD has included new terms that are commonly used by the Section 184 Program in practice. This regulation would formalize these definitions for the program. The following terms would provide clarity and ensure consistency in the implementation of the various parts of the Section 184 Program regulations: “Acquisition cost,” “Amortization,” “Amortization Schedule,” “Annual Loan Guarantee Fee,” “BIA,” “Borrower,” “Claim,” “Conflict of Interest,” “Date of Default,” “Day,” “Direct Guarantee Lender,” “Eligible Nonprofit Organization,” “Financial Statements” “Firm Commitment,” “First Legal Action,” “Good and Marketable Title,” “Holder,” “Identity of Interest,” “Indian Family,” “Indian Housing Loan guarantee Fund,” “Lease or Leasehold Interest,” “Lender,” “Loan,” “Loan Guarantee Certificate,” “Loan Guarantee Fee,” “Loss Mitigation,” “Month or Monthly,” “Non-Direct

Guarantee Lender.” “Origination or Originate,” “Owner of Record,” “Partial Payment,” “Section 184 Guaranteed Loan,” “Section 184 Approved Program Area,” “Section 184 Program Guidance,” “Security,” “Servicer,” “Sponsor,” “Sponsored Entity,” “Tax-exempt Bond Financing,” “Title Status Report,” “Tribe,” “Tribally Designated Housing Entity (TDHE),” “Trust Land,” and Up-Front Loan Guarantee Fee.”

B. Lender Eligibility & Requirements (Subpart B).

This subpart includes Lender eligibility and the application process to participate in the Section 184 Program as a Non-Direct Guarantee or Direct Guarantee Lender.

Lender approval and participation § 1005.201. This section describes the two types of Lenders approved to participate in the Section 184 Program: Lenders deemed approved by statute and Lenders approved by HUD. This section would require that Lenders submit to HUD an application for participation in accordance with the level of activity a Lender wants to engage in, as prescribed by Section 184 Program Guidance. This proposed section is consistent with current program policy, practice, and/or procedure.

Lenders deemed approved by statute § 1005.203. This section is a restatement of what is an eligible Lender under the statute. In response to comments received during Tribal consultation, this section specifically references Community Development Financial Institutions (CDFIs) as being included as a ‘Lender approved by statute.’ This proposed section is consistent with current program policy, practice, and/or procedure.

Lenders required to obtain Secretarial approval § 1005.205. This section addresses qualifications for participation in HUD’s Section 184 Program if a Lender is not approved under the statutory approved listed in § 1005.203. A Lender would be required to submit an application, as prescribed by Section 184 Program Guidance, for HUD to determine the capacity

of the financial institution to participate in the Section 184 Program. This application would include establishing a Lender's qualifications based on the following: business formation verification, certifications related to employees and officers, Financial Statements, quality control plan, identification of branch offices, certification of conflict and interest, licensing certification, verification of minimum net worth, and identification of operating area. HUD will review documentation submitted under this section and make a determination if the requesting financial institution is qualified to be a Lender under the Section 184 Program. If a Lender is approved to participate in the Section 184 Program, HUD would send written notification of approval. If HUD determines that the Lender does not meet the requirements of subpart B, HUD would send written notice of the denial, which may be appealed to HUD in accordance with the appeal procedure set forth in the regulation.

Lender participation options § 1005.207. This section describes the two levels of Lender participation in the Section 184 Program, Non-Direct Guarantee Lender and Direct Guarantee Lender, along with the allowed eligible activities for each level of participation. This section proposes to establish a new requirement that eligible Lenders must select their desired participation level by submitting an application to HUD. A participation level must be selected by the Lender and approved by HUD before initiating any Section 184 program activities.

Direct Guarantee Lender application process § 1005.209. This section details the application requirements for Lenders to apply to become a Direct Guarantee Lender in the Section 184 Program. These proposed requirements HUD believes are necessary to ensure that Direct Guarantee Lenders meet certain minimum requirements including having a certain level of experience in origination, underwriting, and servicing of mortgage loans. Additionally, Lenders must submit a quality control plan.

Direct Guarantee Lender approval § 1005.211. This section addresses what constitutes HUD approval for Lenders applying to participate in the Section 184 Program as a Direct Guarantee Lender under § 1005.209. This section addresses the process HUD would follow to notify Lenders of their approval as Direct Guarantee Lenders under the program. HUD would provide written notification to the Lender, and the Lender would need to certify to being in compliance with all program requirements and agree to ensure that any Sponsored Entities also comply with all program requirements. This section is an addition to HUD's current practice.

Non-Direct Guarantee Lender Application, Approval and Direct Guarantee Lender Sponsorship § 1005.213. This section describes the sponsorship relationship between a Direct Guarantee Lender and a Non-Direct Guarantee Lender and the general responsibilities of a Direct Guarantee Lender as the Sponsor. Each Sponsor is responsible to HUD for the actions of the Sponsored Entity and must ensure that HUD records remain up to date by informing HUD regarding any changes of the Sponsored Entity. This section seeks to align with HUD's current practice.

Annual reporting requirements § 1005.215. This section would require annual reporting on Section 184 Guaranteed Loan performance data from Direct Guarantee Lenders, their Sponsored Entities. It also provides for HUD to establish additional annual reporting requirements as provided in Section 184 Program Guidance. The section would be a new requirement to track the performance of the program and participating Direct and Non-Direct Guarantee Lenders to ensure the protection of the Fund.

Quality control plan § 1005.217. This section proposes to implement the requirement that Lenders participating in the Section 184 Program have a written quality control plan and the contents of that plan. The purpose of the quality control plan is to ensure Lender compliance

with Section 184 Program requirements and protect HUD and the Lenders from unacceptable risks. A Lender would be required to adopt and implement a quality control plan that fully complies with Section 184 Program Guidance. This requirement incorporates existing Quality Control Plan policies and adds new requirements, such as paragraphs (c) and (d) in § 1005.217.

Other requirements § 1005.219. This section describes proposed additional Direct Guarantee Lender and Non-Direct Guarantee Lender requirements, including compliance with pertinent Tribal, Federal, and State, and laws, dual employment, reporting requirements, records retention, all of which are proposed to place in regulations current program policy, practice, and/or procedure.

This section also includes a proposed new requirement that HUD may set for lenders a minimum level of lending on Trust Land. While this program was designed to bring mortgage capital to Trust Lands, the majority of loans guaranteed by the Program are made on fee simple land. In order to address this concern, this rule proposes to set forth a new requirement for lenders participating in the program to actively market, Originate, and underwrite loans on Trust Land. HUD is interested in increasing lending on Trust Land to further the objectives of the Section 184 Program and provide additional homeownership opportunities on Trust Lands. In this section, HUD proposes to set, by *Federal Register*, a minimum lending amount for direct guarantee lenders on Trust Lands. All Lenders would be required to ensure that they comply with these additional requirements to remain as a participant in the program. While HUD is not proposing a specific minimum level of lending on Trust Land in this proposed rule, HUD is interested in receiving feedback on what this minimum level of lending should be and if such minimum requirement would help with the underlying goal of the provision.

Business change reporting § 1005.221. This section would require Lenders participating

in the Section 184 Program to notify HUD within a timeframe as prescribed by Section 184 Program Guidance of any changes in a Lender's legal structure or staffing or any new sanctions against the Lender. HUD is proposing to require this notification to reduce risk and monitor the stability of the lender.

Annual recertification § 1005.223. This section would implement the mandatory submission of an annual recertification by all Direct Guarantee and Non-Direct Guarantee Lenders, as prescribed by Section 184 Program Guidance. HUD is proposing to require recertification to ensure that Direct Guarantee and Non-Direct Guarantee Lenders continue to meet program eligibility requirements and to reduce the risk to HUD and the Fund. This section also would require the Direct Guarantee Lender and Non-Direct Guarantee Lender to submit Financial Reports and updated contact information. This section is consistent with HUD's current practice.

Program Ineligibility § 1005.225. This section describes the circumstances under which HUD would determine that a Direct Guarantee Lender or Non-Direct Guarantee Lender is ineligible to participate the Section 184 Program. This section is intended to reduce risk to the Fund as well and align with current industry standards.

C. Lending on Trust Land (Subpart C).

This subpart proposes requirements for Tribal participation in the Section 184 Program when Tribes want to make Trust Land or Restricted Fee Land available under the Section 184 Program. This section requires a partnership between HUD, the Tribe, the Direct Guarantee Lender, Servicer and the Borrower. The Tribe is a critical partner in the ability of the program to operate on Tribal Lands. For the program to operate on Trust Lands, certain Tribal ordinances must be in place. Tribes interested in participating in the Program would be required to submit to

HUD evidence of the required legal and administrative framework necessary to ensure HUD or the Servicer have the ability to enforce the lien in case of default.

Tribal legal and administrative framework § 1005.301. This section outlines the legal and the administrative framework necessary when a Tribe seeks to allow eligible Borrowers place a mortgage lien on Trust Land under the Section 184 Program. The proposed rule would specify requirements governing foreclosure and assignments, property disposition, eviction procedures, lien priority, and leasing, which are an addition to the regulation to codify current policy, practice and/or procedure. These requirements are necessary to protect Borrowers, Tribes, TDHEs, Lenders and the Fund from unnecessary financial risks. This section proposes new language to be included in the Tribal lease that would allow a Tribe to assign the lease to HUD, and HUD would transfer the lease to a successor lessee, as approved by the Tribe. This language has been added because there have been instances when a Borrower is in Default, their Section 184 Guaranteed Loan has been assigned to HUD, and the Borrower has vacated the Property before foreclosure. The Tribe, THDE or a tribal member is interested in purchasing the Property, but the sale cannot happen because the defaulted Borrower remains on the lease. The proposed language gives the Tribe the authority to assign the lease to HUD so the sale of the property can move forward without having to wait until HUD obtains the lease through foreclosure.

Tribal application § 1005.303. This section includes the application requirements for Tribes interested in bringing the Section 184 Program to their Trust Lands. The application must include a copy of documents related to the Tribe's legal and administrative framework, including but not limited to a Tribe's foreclosure, eviction, lease, and priority lien ordinances, all cross-referenced ordinances in those sections, and any other documents in accordance with Section 184

Program Guidance. HUD is proposing this section to ensure that Tribes have the necessary legal structure in the event of a default on Trust Land and to ensure that HUD is provided first lien priority.

Approval of Tribal application § 1005.305. This section would specify that HUD will provide written notification to Tribes upon the completion of its review of a Tribe's application submitted in accordance with § 1005.303 and would provide the opportunity for Tribes to resubmit missing, incomplete, or deficient applications. This proposed section is consistent with current program policy, practice, and/or procedure.

Tribal recertification § 1005.307. This section would implement the mandatory submission of an annual recertification by all Tribes participating in the Section 184 Program and the contents of such recertification, in accordance with Section 184 Program Guidance. HUD proposes to require recertification to ensure that the Tribe continues to meet program eligibility requirements. This section would also require the Tribe to update contact information. This proposed section is intended to keep current on Tribal contacts and to confirm that there have been no changes to relevant ordinances and the Tribal lease.

Duty to report changes § 1005.309. This section would require Tribes participating in the Section 184 Program to report to HUD any current changes in the Tribe's contact information, or proposed changes to foreclosure, eviction lease and lien priority ordinances. This section is a new requirement to ensure HUD notification of these changes and to reduce the risk to HUD and the Fund.

HUD Notification of any Lease Default § 1005.311. This section would mandate, when there is any Default of the Lease by the Borrower, including a nonpayment of leasehold rent, the lessor shall notify HUD within 30 Days of Default, or as set forth in the Lease agreement. This

section is proposed to ensure notification of a delinquency to HUD and allow HUD to explore early Loss Mitigation actions and to reduce the risk of potential loss to the Fund.

Tribal reporting requirements §1005.313. This section provides HUD with the ability to require Section 184 program-related reports from Tribes approved under § 1005.305. HUD intends to use this new requirement as a placeholder in the event, at a future date, HUD is in need of Section 184 Program information from approved Tribes that is not anticipated in §§ 1005.307 and 1005.309. If HUD determines additional information the Section 184 Program from Tribes is needed, it would publish these requirements in Section 184 Program Guidance and complete the necessary Paperwork Reduction Act process requesting input on the additional burden associated with the requested reports.

D. Underwriting (Subpart D).

This subpart includes the requirements for a loan to be guaranteed by the Section 184 program. The subpart is organized into four sections: eligible Borrowers, eligible Properties, eligible loans, and underwriting.

Eligible Borrowers § 1005.401. This section provides that to be eligible to participate in the Section 184 Program, a Borrower must be an Indian Family, Indian Tribe, or TDHE. This section would require an Indian Family to document its status as American Indian or Alaska Native through evidence as prescribed by Section 184 Program Guidance. This section is a revision of the language found in § 1005.105(b) of the current regulations; the existing regulation is proposed to be moved into a new section and aligns with current procedures.

Principal Residence § 1005.403. This section sets forth the occupancy requirements for Borrowers in relation to the property interest that secures the Section 184 Guaranteed Loan. HUD also defines the qualifications for a non-occupant Co-Borrower. As the program has

evolved, it has allowed for non-occupant co-Borrowers as a way to expand homeownership opportunities for Borrowers who may need assistance with their mortgage and have a family member willing to take on the financial responsibility for the Section 184 Guaranteed Loan. Non-occupant co-Borrowers must be related by blood, or be able to document a family-type, longstanding, and substantial relationship not arising out of the loan transaction. This section is a revision of existing § 1005.105(b)(1).

Borrower residency status § 1005.405. This section describes the residence status requirements to be considered an eligible Borrower in the Section 184 Loan Guarantee program. In addition to the requirements set forth in § 1005.401, an eligible Borrower must be a U.S. citizen; lawful permanent resident alien; or a non-permanent resident alien. Documentation to support the lawful residency status must be provided. This proposed section is consistent with current program policy, practice, and/or procedure.

Relationship of income to loan payments § 1005.407. This section provides that a Borrower's income must be sufficient to cover the costs of Section 184 Guaranteed Loan payments plus any other long-term obligations. This section also describes the requirement for a minimum qualifying threshold when an eligible Borrower has a co-Borrower that will not occupy the home. Additionally, HUD also would require that the determination of the adequacy of a Borrower's income be free from discrimination. In particular, this section adds new language requiring that the determination of adequacy of Borrower income shall be made without regard to, among other things, Borrower's source of income or location of the Property. HUD believes these two proposed non-discrimination provisions further the statutory purpose of the program to "provide access to sources of private financing to Indian families, Indian housing authorities, and Indian tribes, who otherwise could not acquire housing financing because of the

unique status of Indian lands.” 12 U.S.C. 1715z-13a(a). With respect to the proposed prohibition of discrimination based on the Borrower’s source of income, HUD seeks to address instances where lenders may disapprove of the Borrower’s income streams related to Borrower’s Tribal status (such as Tribal payments a Borrower may receive from his or her Tribe or from traditional tribal income sources). With respect to the proposed prohibition of discrimination based on Property location, HUD seeks to address instances where lenders may decide to only approve loans involving fee simple properties and uniformly reject loan applications solely because Borrower chooses to finance a home on Tribal trust property. Other than the newly added provisions regarding non-discrimination based on Property location and sources of income, this section is consistent with current practice, policy, and/or procedure.

Credit standing § 1005.409. This section is proposing, consistent with current policy and practice, that no minimum credit score is required to qualify for a Section 184 Guaranteed Loan. However, Direct Guarantee Lenders are required to analyze the Borrower’s credit history and payment patterns to determine credit worthiness. This section also revises the existing guidance that if a Borrower previously defaulted on a Section 184 Guaranteed Loan, they are ineligible to apply for another Section 184 Guaranteed Loan. To conform with industry practice, HUD is proposing that these Borrowers may apply for a Section 184 Guaranteed Loan after a waiting period as prescribed by HUD.

Disclosure and verification of Social Security and Employer Identification Numbers or Tax Identification Number § 1005.411. This section would require that Borrowers must meet the requirements for the disclosure and verification of social security, employer and tax identification numbers. Disclosure and verification of this information minimizes fraud and adds protections for the Fund and is consistent with HUD’s current practice, policy, and/or procedure.

Acceptable title § 1005.413. To be considered acceptable title, a Section 184 Guaranteed Loan must be on real estate held in fee simple land or Trust Land. Where title evidences a lease that is used in conjunction with the Section 184 Guaranteed Loan, the lease must comply with § 1005.301, and must have a remaining term which exceeds the maturity date of the Section 184 Guaranteed Loan by ten years. This proposed section is consistent with current program policy, practice, and/or procedure.

Sale of Property § 1005.415. This section would require that the Property be purchased from the Owner of Record and that the Direct Guarantee Lender provide evidence of ownership. Additionally, this section would establish the requirements for documentation and timing restrictions on property re-sales to prevent flipping of the Property for financial gain by the Borrower. This proposed section is consistent with current program policy, practice, and/or procedure.

Location of Property § 1005.417. This section would establish that a Property must be used for residential purposes and be located within an approved Section 184 Approved Program Area to be eligible for a Section 184 Guaranteed Loan. This proposed section is consistent with current program policy, practice, and/or procedure.

Requirements for standard housing § 1005.419. This proposed section lists the minimum required property standards for properties under the Section 184 Program. This section also explains environmental review requirements and responsibilities and includes requirements for flood insurance, the Coastal Barrier Resource System and Special Airport Hazards. With respect to minimum required property standards, this proposed section requires the property to be: decent, safe, sanitary and modest in size and design, conform with applicable general construction standards for the region, containing a heating system, contain a plumbing system,

contain an electrical system, meet minimum square footage requirements, and conform with energy performance requirements for new construction. This proposed section revises existing § 1005.111(a) consistent with current practices, policies, and/or procedures.

Certification of appraisal amount § 1005.421. This section would require the contract for sale to be satisfactory to HUD and where the seller agrees to provide a certification of appraisal establishing the amount of the appraised value of the Property. This protects the Borrower and the Fund by ensuring the guaranteed loan is secured by a Property where the true value has been established. This proposed section is consistent with current program policy, practice, and/or procedure.

Legal Restrictions on Conveyance § 1005.423. This section proposes to define and establish permitted legal restrictions that may be placed on a Property guaranteed by a Section 184 loan. This section would allow for restrictions on conveyance only to enrolled Tribal members when the Property is located on Trust Land, the acceleration of a mortgage subject to tax exempt bond funding where it no longer meets the Federal requirements, and Property with approved restrictions established for occupancy for the elderly. This regulation would provide Tribes with the maximum flexibility available to best serve their Tribal members. This proposed section is consistent with current program policy, practice, and/or procedure.

Rental properties § 1005.425. This section proposes the conditions under which a Section 184 Guaranteed Loan may be used to purchase a one- to four-family unit Property where one unit will be owner occupied and the additional units may be rented. This section clarifies that one- to four-family unit Properties owned by the Tribe or TDHE will not be subject to the same conditions. This section clarifies the two allowable exceptions to the Principal Residence requirements in § 1005.403 and is consistent with current program policy, practice, and/or

procedure.

Refinancing § 1005.427. This section proposes to include the criteria to refinance a qualified loan under the Section 184 Program and presents the three types of allowable refinance transactions: Rate and Term, Streamline and Cash Out. This section would require a maximum term for the new loan to be 30 years and a payment history on the existing loan that meets the standards established by HUD. It would also prohibit Lenders from requiring a minimum outstanding principal amount on the existing loan and clarifies the treatment of financed Up-front Loan Guarantee Fees. This proposed section is consistent with current program policy, practice, and/or procedure.

Eligibility of Loans covering manufactured homes § 1005.429. This section provides eligibility requirements for the financing of one-family manufactured homes. This section would establish the minimum square footage for a unit, the requirement to meet the National Manufactured Home Construction and Safety Standards and have a certification label, and the requirement of siting on a permanent foundation that meets the applicable installation standards and adheres to the manufacturer's installation instructions. This regulation is required to ensure the safety of the Borrower and the value of the collateral. This proposed section is consistent with current program policy, practice, and/or procedure and would align with FHA standards.

Acceptance of individual residential water purification § 1005.431. This section proposes requirements for properties that do not have access to a continuing supply of safe and potable water, without use of a water purification system. It would require the applicable official's specification of the water purification equipment approval standard, certification by Tribal, State or health authority, and Borrower notices and certification. This section would require a certification by a Tribal, State, or local health authority that it has determined the water

supply meets the entity's quality standards for drinking water. Additionally, this section would require written notification to the Borrower when the contract is ratified that the Property does not have access to a continuing supply of safe and potable water without a purification system, a water safety report identifying contaminants and associated health hazards, and a good faith estimate of maintenance and replacement costs. The Borrower must sign a certification they have received all of this information prior to underwriter approval. This regulation would provide the Borrower with full disclosure of maintenance and upkeep costs of an individual water purification system and health and safety provisions. This proposed section is consistent with current program policy, practice, and/or procedure and would align with industry standards.

Builder warranty § 1005.433. This section proposes that a builder must submit a warranty that the Property is constructed in substantial conformity with the plans and specifications for newly constructed Properties guaranteed by the Section 184 Program. This proposed section is consistent with current program policy, practice, and/or procedure and would align with industry standards.

Eligible collateral § 1005.435. This section proposes what collateral is acceptable for a Section 184 Guaranteed Loan. The proposed section would require that the collateral be authorized and not prohibited by Tribal, Federal, State, or local law and must be sufficient to cover the amount of the loan as determined by the Direct Guarantee Lender and approved by HUD. This section would revise existing § 1005.107 of the current regulations and be consistent with current practices, policies, and/or procedures.

Loan provisions § 1005.437. This proposed section provides the details for loan provisions required for a Section 184 Guaranteed Loan, including loan form, loan multiples, loan payments, loan maturity, property standards, disbursements and prepayment. This section would

revise existing § 1005.105(a).

Loan lien § 1005.439. This section proposes lien requirements for a Section 184 Guaranteed Loan. After the loan offered for guarantee has been recorded, the Property must be free and clear of any other liens, unless prior approval has been granted by HUD for a junior lien. This section proposes conditions for a junior lien, which covers periodic payments, ability to pay considerations, loan to value limitations, prohibition of balloon payments earlier than 10 years, requirement for the junior lien to be due and payable upon sale or refinance of the Section 184 Guaranteed Loan, and the acceptability of prepayments at any time without the requirement for a prepayment penalty. In addition, a junior lien may be provided as a means to reduce that Borrower's monthly payments. This type of junior lien would require pre-approval from HUD, shall not require the payment of any principal or interest until the Property securing the junior lien is sold or the Section 184 Guaranteed Loan is refinanced, and shall not require principal and interest payments, so long as the Property is owner occupied and, where applicable, shall provide forgiveness of the junior lien at the end of the term. Lastly, if a junior lien is related to tax exempt bond financing or low-income housing tax credits, HUD approval is also required. This proposed section is consistent with current program policy, practice, and/or procedure.

Section 184 Guaranteed Loan limit § 1005.441. This section would establish HUD's authority to set the maximum loan limits for Section 184 Approved Program Areas. HUD may revise these maximum limits periodically. This proposed section is consistent with current program policy, practice, and/or procedure.

Loan amount § 1005.443. This section proposes the minimum required investment from the Borrower based on the difference between the sales price and the base loan amount. It also would provide the methodology for calculating the base loan amount and would establish the

maximum and minimum principal loan amounts. This investment must come from the Borrower's own funds, gifts, or Tribal, State, or local funds awarded to the Borrower. The regulation is required to balance the risk to the Fund and the unique requirements of Native American Borrowers. This proposed section is consistent with current program policy, practice, and/or procedure.

Case numbers § 1005.445. This section explains when and how to obtain a Section 184 case number. Direct Guarantee Lenders must have an active loan application for a Borrower and a specific Property. The case number request must include proof of Tribal enrollment or Alaska Native status, verification that the Property is located in a Section 184 Approved Program Area, confirmation that the Loan does not exceed the Section 184 Loan Limit, and be submitted in manner prescribed in the Section 184 Program Guidance. Case numbers will be automatically cancelled after a period identified by HUD if a reservation of funds request is not received and processed by HUD. HUD may allow for the extension as prescribed. This proposed section is consistent with current program policy, practice, and/or procedure.

Maximum age of Loan documents § 1005.447. This section proposes the maximum age of loan documents at the time of underwriting and loan closing. Documents reviewed at underwriting may not be older than 60 Days and all documents may not be more than 120 Days old at closing. Certain documents will be exempt from these time frames if they are not affected by the passage of time. This proposed section is consistent with current program policy, practice, and/or procedure.

Qualified mortgage § 1005.449. This section explains that Section 184 Guaranteed Loans are afforded safe harbor as qualified mortgages that meet the ability-to-pay requirements. This section is a revision of the existing § 1005.120 and conforms to current practices, policies,

and/or procedures.

Agreed interest rate § 1005.451. This section would require that a Loan must have an interest rate that is agreed upon by the Direct Guarantee Lender and Borrower and is determined by HUD to be reasonable. This regulation is necessary to ensure Borrowers are not being charged inflated interest rates attributable to risk-based pricing for minimum loan amounts, credit scores, or other risks, when the Direct Guarantee Lender is receiving a 100 percent guarantee against any loss due to Default. This risk-based pricing requirement would be a new requirement and is intended to protect the Borrower from inflated interest rates, which may impact loan performance and the Fund.

Amortization provisions § 1005.453. This section proposes that a Loan's Amortization provisions be satisfactory to HUD, monthly payments by the Borrower, and that the principal and interest payments each month shall be substantially the same. This section is a revision of existing § 1005.105(a) and is consistent with current practices, policies, and/or procedures.

Direct guarantee underwriting § 1005.455. This section outlines proposed requirements for direct guarantee underwriting including underwriter due diligence, evaluation of the Borrower, and assumptions. This section is a revision of the existing § 1005.106(a), outlining the direct guarantee procedure. Direct Guarantee underwriters must exercise the same level of due diligence as if they were entirely dependent on the Property as Security to protect their investment. An acceptable quality control plan and compliance with HUD prescribed underwriting guidelines are the minimum standard of due diligence. Direct Guarantee underwriters shall evaluate the Borrower's credit characteristics, adequacy, and stability of income to make payments on all obligations and the available assets. This section also would require all assumptions of an existing Section 184 Guaranteed Loan be underwritten using the

same Borrower eligibility and underwriting standards in this subpart. This section is consistent with current program policy, practice, and/or procedure.

Appraisal § 1005.457. This section would establish the requirement for the appraisal of a Property to be used to obtain a Section 184 Guaranteed Loan, the selection of an appraiser, appraisal standards, validity period for appraisals, possible extensions of the validity period, and possible sanctions when the requirements listed under the section are not met. A property appraisal for the Section 184 Program must be done in accordance with the Uniform Standards of Professional Appraisal Practice and the Fair Housing Act (42 U.S.C. 3601-19); however, HUD may establish alternative requirements in Section 184 Program Guidance. The Direct Guarantee Lender must select an appraiser currently on the FHA Appraiser Roster and the Direct Guarantee Lender must not discriminate in its selection of the appraiser. The appraiser must be knowledgeable in the market where the Property is located. The appraisal and related documents must satisfy FHA, Fannie Mae, or Freddie Mac requirements. In addition, the Direct Guarantee Lender may be subject to sanctions permitted under §1005.907 for submitting an appraisal that does not meet the requirements described. This proposed section would codify current program policy, practice, and/or procedure and aligns with industry standards.

Loan submission to HUD for endorsement § 1005.459. This section proposes a 60-Day timeframe in which an endorsement case binder must be sent to HUD after closing. This section also outlines the additional documentation required for a late submission greater than 60 Days after closing. The Direct Guarantee Lender would be required to submit a late endorsement request with documentation affirming the loan is not currently in default, all escrow accounts are current, all loan guarantee fees are current, and a statement that neither the Direct Guarantee Lender nor its agents have provided funds to bring or keep the loan current or bring about the

appearance of a satisfactory payment history. This proposed section is consistent with current practices, policies, and procedures. This section does propose an exception to the proposed current endorsement practice, which provides that with prior approval from HUD, consistent with Section 184 program guidance, the Direct Guarantee Lender or Servicer may provide funds to bring or keep the Section 184 Guaranteed Loan current in the event the Borrower agrees to Loss Mitigation before HUD provides endorsement, as the case with some Borrowers during the COVID-19 National Emergency.

HUD issuance of Firm Commitment § 1005.461. This section proposes that HUD may underwrite, consistent with specific underwriting criteria, and issue a Firm Commitment. This proposed section is consistent with HUD's current practice, policy, and or procedure.

E. Closing and Endorsement (Subpart E).

This subpart includes requirements for closing a Section 184 Guaranteed Loan and receiving endorsement approval from HUD. The subpart is organized into two sections: closing, and endorsement and post-closing.

Direct Guarantee Lender closing requirements § 1005.501. This section would provide the required documentation for closing a loan under the program, including: chain of ownership, title search and Title Status Report, closing in compliance with Direct Guarantee Lender approval, closing in the Lender's name, required forms and language in documents, projected escrow, closing costs and fees, per diem interest and interest credits, Borrower authorization of Tribal notice, signatures, and other requirements. This documentation is necessary to ensure that the Loan may be eligible for a Loan Guarantee under the program. This proposed section is consistent with current program policy, practice, and/or procedure.

Contents of endorsement case binder § 1005.503. This section proposes HUD

requirements for the contents of the endorsement case binder. The endorsement case binder is required by HUD and includes certain documentation necessary for HUD to determine program compliance and to issue a Loan Guarantee Certificate to the Lender. The actual contents of the endorsement case binder shall be in a format as prescribed by Section 184 Program Guidance. This proposed section is consistent with current program policy, practice, and/or procedure.

Payment of Upfront Loan Guarantee Fee § 1005.505. This section would require the Direct Guarantee Lender to provide evidence of the remittance of the Upfront Loan Guarantee Fee, as required under § 1005.607. This proposed section is consistent with current program policy, practice, and/or procedure.

Borrower's payments to include other charges and escrow payments § 1005.507. This section proposes the charges and escrow payments that the Direct Guarantee Lender must include as part of the Section 184 Guaranteed Loan monthly payment. This section also proposes how these payments should be managed by the Lender and disallows the recovery from the Borrowers of payment of additional premiums to protect the interest of the Lender. This proposed section is consistent with current program policy, practice, and/or procedure.

Application of payments § 1005.509. This section would require that all monthly payments made by the Borrower to the Servicer shall be aggregated into a single monthly payment, and that the Servicer shall apply the Borrower's funds in accordance with § 1005.715. This proposed section is consistent with current program policy, practice, and/or procedure.

Late fee § 1005.511. This section would establish the ability for a Servicer to charge a late charge to the Borrower when a Section 184 Guaranteed Loan payment is 15 or more Days in arrears. It also would establish maximum late charge of four percent of the overdue payment of principal and interest, or any other amount as established by HUD through public notice with an

opportunity for comment. This section is intended to provide a deterrent for the Borrower to make payments outside of the applicable payment period and to reduce risk to the Direct Guarantee Lender and the Fund. This proposed section is consistent with current program policy, practice, and/or procedure.

Borrower's payments when Section 184 Guaranteed Loan is executed § 1005.513. This section outlines what payments from what parties are required upon execution of the Section 184 Guaranteed Loan, including the one-time Up-Front Loan Guarantee Fee or any portion payable pursuant to §1005.603; and all other applicable monthly charges pursuant to § 1005.507, including the annual Section 184 Guaranteed Loan fee pursuant to § 1005.607, covering the period from the closing date to the due date of the first installment payment under the Section 184 Guaranteed Loan. This proposed section is consistent with current program policy, practice, and/or procedure.

Charges, fees, or discounts § 1005.515. This section proposes a list of allowable charges, fees, or discounts a Direct Guarantee Lender may collect from the Borrower at Origination of a Section 184 Guaranteed Loan. These charges/fees include costs to cover origination and closing; recording fees and recording taxes; credit report; survey; title examination; title insurance premium and any appraisal or inspection; such other reasonable and customary charges as may be authorized by HUD; reasonable and customary charges in the nature of discounts; and interest calculations in accordance with § 1005.501. Before the Loan may be guaranteed by the Section 184 Program, the Direct Guarantee Lender must provide HUD a listing of all charges, fees, or discounts collected from the Borrower by the Lender.

For an assumption of an existing Section 184 Guaranteed Loan, processing fees must be based on actual costs and the Direct Guarantee Lender may not charge more than the reasonable

and customary allowable cost without HUD approval. Fees for assumptions may include, but are not limited to, credit report, verification of employment and the execution of additional release of liability forms. Additional fees over and above assumption fees cannot be assessed for Section 184 Guaranteed Loans on Trust Lands. HUD may establish limitations on the amount charged for origination, closing, and assumptions. This proposed section is consistent with current program policy, practice, and/or procedure.

Certificate of nondiscrimination by the Direct Guarantee Lender § 1005.517. This section would require that Direct Guarantee Lenders, when applicable, certify to HUD specific nondiscrimination practices required of Direct Guarantee Lenders, including: nondiscrimination based on race, color, religion, sex, disability, familial status, or national origin, except as provided by law; and prohibiting any restrictive covenant, other than permissible restrictions on Trust Land, on such Property relating to race, color, religion, sex, disability, familial status, or national origin and recognizing such prohibited restrictive covenants as being illegal, void, and disclaimed. A civil action for preventative relief may be brought by the Attorney General in any appropriate U.S. District Court against any person responsible for a violation of this certification. This section is intended to protect the Borrower from discrimination, and is consistent with current program policy, practice, and/or procedure.

Creation of the contract § 1005.519. This section describes when a Loan shall be considered guaranteed under the program and that the Direct Guarantee Lender and HUD are bound by the requirements set forth in this regulation as if the two parties were in an executed contract relating to the loan. This proposed section is consistent with current program policy, practice, and/or procedure.

Pre-endorsement review and requirements § 1005.521. This section would require a pre-

endorsement review of the endorsement case binder by the Direct Guarantee Lender prior to the submission of the endorsement case binder to HUD and describes the parameters of this review. This review must be conducted by Direct Guarantee Lender staff not involved in the origination, processing, or underwriting of the loan, and the case binder must include all documentation the Direct Guarantee Lender used to approve the loan. Upon finalizing the pre-endorsement review, the Direct Guarantee Lender must certify that all required documents were submitted and meet the requirements of § 1005.503. This proposed new requirement would provide additional assurances that the Direct Guarantee Lender is making prudent judgements when approving the loans and following HUD program policies, practice, and procedures.

HUD pre-endorsement review § 1005.523. This section proposes Lender's submission deadline and HUD's process for a pre-endorsement review. Before endorsement, HUD will review the endorsement case binder submitted by the Direct Guarantee Lender to ensure that the loan meets all statutory, regulatory, and administrative requirements. Following this review, if the loan is determined to be eligible, HUD will issue a Loan Guarantee Certificate. HUD may reject an endorsement case binder if HUD finds that the certification or documentation is false, misleading, or constitutes fraud or is a misrepresentation on the part of any party, or that the loan fails to meet a statutory or regulatory requirement. HUD will inform the Direct Guarantee Lender in writing the reasons for the determination and any corrective actions that may be taken. The HUD pre-endorsement review is intended to reduce the risk for fraud and program non-compliance that could negatively impact the Fund, and is consistent with current program policy, practice, and/or procedure.

Loan Guarantee Certificate § 1005.525. This section proposes the conditions under which HUD will issue a Loan Guarantee Certificate. The Loan Guarantee Certificate is evidence

of the HUD guarantee and is issued after HUD completes a review of the Lender's endorsement case binder and determines the case binder is in compliance with all applicable Section 184 requirements. HUD may issue a Loan Guarantee Certificate for a loan on Trust Land before HUD receives all required Trailing Documents, provided that the Direct Guarantee Lender agrees to indemnify HUD. The indemnification agreement between HUD and the Direct Guarantee Lender will terminate once all required documentation is received in a form and manner that is acceptable by HUD. This proposed section is consistent with current program policy, practice, and/or procedure.

Post-endorsement review § 1005.527. This section proposes the process for HUD to conduct a post-endorsement review of the endorsement case binder, including, but not limited to a quality control review. Following the issuance of the Loan Guarantee Certificate, HUD may review all documents required by § 1005.503. Based upon this review, if HUD determines that the Loan does not satisfy the requirements of the program, HUD may cancel the Section 184 Loan Guarantee Certificate, may request indemnification from the Direct Guarantee Lender, or sanction the Direct Guarantee Lender pursuant to § 1005.907. This proposed section is consistent with current program policy, practice, and/or procedure.

Indemnification § 1005.529. This section proposes that an Originating Direct Guarantee Lender must indemnify HUD when a claim has been filed or when HUD discovers an underwriting deficiency in a pre- or post-endorsement review. In this instance, the Originating Direct Guarantee Lender shall indemnify HUD or HUD may deny the Claim. Underwriting deficiencies may include, but not limited to, fraud or misrepresentation by the Originating Direct Guarantee Lender. If indemnification is necessary, HUD will request indemnification in writing that the Originating Direct Guarantee Lender will reimburse HUD if a subsequent holder of the

loan files a Claim and HUD suffers a financial loss. This proposed section is intended to protect HUD from financial risk from possible underwriting deficiencies and aligns with industry standards.

F. Section 184 Guaranteed Loan Fees (Subpart F).

This subpart includes the requirements for calculation, collection, and submission of the Section 184 Loan Guarantee Fee.

Scope and method of payment § 1005.601. This section includes the statutory requirements of a one-time, Up-Front Loan Guarantee Fee and a recurring Annual Loan Guarantee Fee, for all Section 184 Guaranteed Loans. This section revises existing § 1005.109 of the current regulations and is consistent with current program policy, practice, and/or procedure.

Up-front Loan Guarantee Fee § 1005.603. This section mandates that an Up-Front Loan Guarantee Fee, not exceeding three percent of the principal obligation of the loan, as determined by HUD, is to be paid at closing. The amount of the Up-Front Fee will be prescribed by HUD through a notice in the *Federal Register*. This fee is statutorily required and necessary to credit the Fund to provide for payments under the guarantee, in addition to congressional appropriation.

Remittance of Up-Front Loan Guarantee Fee § 1005.605. This section would require the Direct Guarantee Lender to submit to HUD the Up-Front Loan Guarantee Fee within 15 Days of loan closing. Additionally, this section would require the Direct Guarantee Lender to provide an account reconciliation of the Up-Front Loan Guarantee Fee in the time and manner as may be prescribed by HUD. This proposed section codifies current program practices, policy, and/or procedure.

Annual Loan Guarantee Fee § 1005.607. This section would require an Annual Loan Guarantee Fee to be collected from the Borrower on a monthly basis, as determined by HUD and

published in the *Federal Register*. This section would also authorize the Servicer to collect monthly payments from the Borrower in an amount equal to one-twelfth of the annual loan guarantee premium and the ability for the Borrower to prepay their Section 184 Guaranteed Loan. These payments are included in the Amortization Schedule issued with the Loan approval. The Annual Loan Guarantee Fee is statutorily required and necessary to credit the Fund to provide for payments under the guarantee, in addition to congressional appropriation. This proposed section is consistent with current program policy, practice, and/or procedure.

Remittance of Annual Loan Guarantee Fee § 1005.609. This section would require the Servicer to submit to HUD the Annual Loan Guarantee Fees collected from the Borrower no later than the 15th Day of each month, beginning in the month in which the Borrower is required to make the first monthly loan payment. If the Servicer is late submitting the monthly installment of the Annual Loan Guarantee Fee, the Servicer must pay a penalty in accordance with § 1005.611. The Annual Loan Guarantee Fee no longer applies when the loan to value ratio equals an amount less than 78 percent, in accordance with § 1005.607. The Servicer must refund to the Borrower any excess Annual Loan Guarantee Fees collected when the loan-to-value ratio is less than 78 percent, within 30 Days of the overpayment.

This section also would require that the Servicer continue to collect the Annual Loan Guarantee Fee on a monthly basis without regard to delinquent payments, prepayments, agreements to postpone payments, or agreements to recast the loan. When transferring a Section 184 Guaranteed Loan to another Servicer, this section would require an account reconciliation of the Upfront Guarantee Fee and Annual Loan Guarantee to the new Servicer. When transfer of servicing between Servicers results in a missed monthly payment(s) of the Annual Loan Guarantee Fee to HUD, the acquiring Servicer shall pay the overdue payment(s) in a lump sum

to HUD within 30 Days of acquisition of the loan and include any applicable penalties in accordance with § 1005.611. This section clarifies the circumstances of the on-going payment of the monthly payment of the Annual Loan Guarantee Fee and sets a timeframe for submission of this payment even when the loan is sold between Direct Guarantee Lenders or to a Servicer. This proposed section is consistent with current program policy, practice, and/or procedure.

HUD imposed penalties § 1005.611. This section proposes the circumstances in which HUD may impose civil monetary penalties on Direct Guarantee Lenders and Servicers related to the collection and submission of Loan Guarantee Fees. This section also prohibits seeking recovery of the penalty from the Borrower. Direct Guarantee Lenders may incur penalties for failure to timely remit Up-Front Loan Guarantee Fee. Servicers may incur penalties for failure to timely remit the monthly installment of the Annual Loan Guarantee Fee to HUD, failure to adjust the amount of the Annual Loan Guarantee Fee, and failure to cease collection of the Annual Loan Guarantee Fee. A reasonable penalty or fee will be prescribed by HUD in Section 184 program guidance. HUD is proposing allowing a monetary penalty for the late or non-submission of the Annual Loan Guarantee Fee to encourage Lenders and Servicers to pay on a timely basis.

G. Servicing (Subpart G).

This subpart includes the requirements for Servicers to manage Section 184 Guarantee Loans and steps to take when a Borrower defaults on a Section 184 Guaranteed Loan. The subpart is organized into four sections: servicing loans generally, servicing defaulted loans, Loss Mitigation and assignment, foreclosure and conveyance.

Section 184 Guaranteed Loan servicing generally § 1005.701. This proposed section provides an overview of Subpart G, HUD servicing expectations and requirements for servicing Section 184 Guaranteed Loans.

Servicer eligibility and application process § 1005.703. This section proposes that a

Direct Guarantee Lender, Non-Direct Guarantee Lenders or other financial institution must be an approved mortgage Servicer for FHA or another agency of the Federal Government. Direct Guarantee Lenders, and Non-Direct Guarantee Lenders are required to apply to be a Servicer, in accordance with Section 184 Program Guidance. This proposed section is intended to ensure that Servicers have the experience and qualifications and have the processes in place to properly service Section 184 Guaranteed Loans to provide quality customer service to Native American Borrowers.

Servicer approval § 1005.705. This section proposes what constitutes HUD approval for a Direct Guarantee Lenders, Non-Direct Guarantee Lenders and other financial institutions applying to be Servicers in the Section 184 Program under § 1005.703. This section addresses the process HUD will follow to notify interested Non-Director Guarantee Lenders and financial institutions seeking HUD approval to be a Servicer under the program. HUD will provide written notification of its approval and the approved Servicer must agree to comply with all program requirements. This includes the notification by the Servicer to HUD of any acquisition or sale of Section 184 Guaranteed Loans. This proposed section would be complimentary to the new requirement under § 1005.703.

Responsibility for servicing § 1005.707. This section proposes a Servicer's responsibilities under the Section 184 Program, which includes, program compliance, using a sub-Servicer, changing Servicers, transferring servicing rights, reporting requirements, program ineligibility, and records retention. This section proposes new requirements for the Servicer in the areas of annual recertification and business change reporting. HUD is proposing these new requirements to reduce risk and monitor the stability of the Servicer.

Providing information to Borrower and HUD § 1005.709. This section proposes Servicer

requirements for providing information to the Borrower on the Section 184 Guaranteed Loan. Servicers must provide loan information to Borrowers and arrange for individual loan consultation on request. The Servicer must establish written procedures and controls to assure prompt responses to inquiries. All Borrowers must be informed annually of the system available for obtaining answers to loan inquiries and the office to which requests may be presented. Within 30 Days after the end of each calendar year, the Servicer must furnish to the Borrower a statement of the interest paid, and of the taxes disbursed from the escrow account during the preceding year. At the Borrower's request, the Servicer must furnish a statement of the escrow account sufficient to enable the Borrower to reconcile the account. Each Servicer must deliver to the Borrower a written notice of any transfer of the servicing rights of the loan. Finally, Servicers must respond to HUD requests for information concerning individual accounts within a timeframe prescribed by Section 184 Program Guidance. HUD is proposing these requirements to ensure that acceptable procedures exist so that Servicers can readily provide loan information to Borrowers and HUD. This proposed section is consistent with current program policy, practice, and/or procedure.

Assumption and release of personal liability § 1005.711. This section proposes the requirements and the process for assumption of a Section 184 Guaranteed Loan. Eligible Borrowers may assume a Section 184 Guaranteed Loan. The new Borrower must be determined to be creditworthy under Subpart D. For loans securing Properties on Trust Lands, the lease document may require Tribal and Bureau of Indian Affairs (BIA) approval of the assignment of the lease to the new Borrower. Servicers should not proceed to closing on the assumption until and unless the Tribe has assigned the leasehold to the new Borrower, and it has been approved by the BIA. Servicers may only collect fees for an assumption in accordance with this section.

With respect to release of liability, this section would provide that at closing, the Servicer must release the existing Borrower from any personal liability on a form approved by HUD and the new Borrower assumes personal liability of the loan. Finally, upon completion of an assumption, a Servicer is required to provide copies of the documents to HUD. HUD will issue a revised Loan Guarantee Certificate and additional processing instructions. These changes ensure clear guidelines exist to govern the assumption and associated release of personal liability, such as ensuring that Borrowers that assume loans meet minimum creditworthiness standards. This proposed section is consistent with current program policy, practice, and/or procedure.

Due-on-sale provision § 1005.713. This section mandates a due-on-sale clause permitting acceleration for all Section 184 Guaranteed Loans. The Servicer must accelerate the loan, subject to HUD prior approval, so long as the acceleration is permitted by applicable Tribal, Federal, or State law This proposed section is consistent with current program policy, practice, and/or procedure.

Application of Borrower payments § 1005.715. This section would establish the order in which the Servicer applies Borrower payments authorized under § 1005.509 and the proposal is consistent with current program policy, practice, and/or procedure.

Administering escrow accounts § 1005.717. This section would establish the requirements for administering escrow accounts and deposits from a Section 184 Guaranteed Loan. The Servicer may not use escrow funds for any purpose other than that for which they were received. It must segregate escrow commitment deposits, work completion deposits, and all periodic payments received on account of leasehold rents on Trust Land, taxes, assessments, monthly installments of Section 184 annual loan guarantee fees and insurance charges or premiums and must deposit such funds with one or more financial institutions in a special

account or accounts that are fully insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration. The Servicer must also adhere to the requirements as prescribed by Section 184 Program Guidance for escrow funds related to leasehold rents on Trust Lands. The Servicer is responsible for making escrow disbursements before bills become delinquent and must establish controls to ensure that bills payable from the escrow fund or the information needed to pay such bills is obtained on a timely basis. Penalties for late payments for items payable from the escrow account must not be charged to the Borrower unless the penalty was the direct result of the Borrower's error or omission. This section also mandates that the Servicer use the procedures set forth in the CFPB's RESPA regulations at 12 CFR 1024.17 to compute the amount of the escrow, the methods of collection and accounting, and the payment of the bills for which the money has been escrowed. The Servicer is prohibited from initiating foreclosure for a default related to escrow payment shortfalls resulting from an adjustment pursuant to this section. Finally, when a Section 184 Guaranteed Loan is terminated voluntarily or because of Borrower's prepayment in full of the unpaid principal balance, amounts in the escrow account designated to pay any HUD required program fees must be remitted to HUD. When a loan is prepaid in full, amounts held in escrow for taxes, hazard insurance, or rents due under a tribal lease must be promptly released to the Borrower. HUD is proposing this section to ensure clear guidelines on how Servicers must administer escrow accounts. This proposed section is consistent with current practices, policies and/or procedures, aligns with industry standards, and cross references RESPA requirements, as implemented in CFPB regulations.

Fees and costs after endorsement § 1005.719. This section sets forth the allowable fees and charges from the Servicer to the Borrower after HUD's endorsement of the Section 184 Guaranteed Loan. Permissible fees and charges include certain late charges, charges for

processing or reprocessing a check returned as uncollectible, fees for processing a change of ownership of the mortgaged Property, fees and charges for arranging a substitution of liability in connection with the sale or transfer of the Section 184 Property, charges for processing a request for credit approval on behalf of an assumption or substitute Borrower, charges for substitution of a hazard insurance policy, charges for modification of the Section 184 Guaranteed Loan involving a recorded agreement for extension of term or re-Amortization, fees and charges for processing a partial release of the Property, certain attorney's and trustee's fees and expenses actually incurred, escrow charges, a trustee's fee, property preservation expenses incurred, fees permitted for providing a beneficiary notice under applicable Tribal or State law, and such other reasonable and customary charges as may be authorized by HUD. This section also would provide that reasonable and customary fees must be based upon the actual cost of the work performed, including out-of-pocket expenses. HUD may establish maximum fees and charges, which are reasonable and customary in different areas. Unless otherwise provided, no fee or charge may be based on a percentage of either the face amount of the loan or the unpaid principal balance due on the Section 184 Guaranteed Loan. This section proposes to clarify the range of fees and charges that can and cannot be charged by Servicers participating in the program proposes change consistent with HUD's current practice, policy, and or procedure.

Enforcement of late fees § 1005.721. This section proposes when and how late charges must be applied by a Servicer. It would provide that Servicers are prohibited from commencing foreclosure when the Borrower's only default is his or her failure to pay a late charge or charges. A late charge attributable to a particular installment payment due may not be deducted from that installment. However, if the Servicer notifies the Borrower of the obligation to pay a late charge, that charge may be deducted from any subsequent payment. This section also would provide that

a payment may be returned because of failure to include a late charge only if the Servicer notifies the Borrower before imposition of the charge of the amount of the monthly payment, the date when the late charge will be imposed and either the amount of the late charge or the total amount due when the late charge is included. This section prohibits a late charge from being imposed on the Borrower with respect to any payment on the Section 184 Guaranteed Loan during the 60 Day period beginning on the effective date of transfer of the servicing rights of a Section 184 Guaranteed Loan. This section would provide that if a payment is received by the old Servicer prior to the due date, no late charges may be assessed by the new Servicer. Finally, this section would provide that a Servicer is prohibited from imposing a late fee for failure to pay a late fee, consistent with CFPB regulations. HUD is proposing this addition to consistent with current program practices, policies, procedures, to conform the regulations to CFPB's Truth in Lending regulations, and to ensure that Servicers comply with fair rules governing late charges and is intended align with industry standards.

Partial payments § 1005.723. This proposed section provides that a Servicer must have a written policy available to the public on how it handles Partial Payments and outlines the acceptable actions when a Servicer receives a Partial Payment from a Borrower. It also proposes to provide that upon receipt of a Partial Payment, a Servicer must provide to the Borrower a copy of the Servicer's written Partial Payment policy and a letter explaining how it will handle the received Partial Payment. The Servicer may accept a Partial Payment and apply it to the Borrower's account, identify it with the Borrower's account number and hold it in a trust account pending disposition, or return the Partial Payment to the Borrower. This proposal is necessary to ensure clear guidelines on how Servicers are to manage Partial Payments and would provide Servicers with various options and is intended to codify current practice, policy, and/or

procedure.

Handling prepayments § 1005.725. This section would require that a Servicer accept prepayment at any time and details how the interest on the debt is calculated for prepayments. This proposed section is consistent with codifies current practices, policies, and/or procedures, and ensures that Borrowers who want to make prepayments on their Section 184 Guaranteed Loans have the option to do so.

Substitute Borrowers § 1005.727. This section proposes when a Borrower requests the substitution of a co-Borrower on the Section 184 Guaranteed Loan. A remaining original Borrower must still be on the loan. It would provide that where an original Borrower requests the substitution of a co-Borrower on the loan, a Non-Direct Guarantee Servicer must obtain HUD approval for the substitution. A Direct Guarantee Lender may approve an eligible substitute Borrower who meets program eligibility requirements and need not obtain further specific approval from HUD. This proposed section is meant to provide clear guidelines to Servicers and Borrowers on how to manage the substitution of Borrowers consistent with current practice, policy, and/or procedure.

Section 184 Guaranteed Loan collection action § 1005.729. This section would require the Servicer to take prompt action to collect amounts due from Borrowers and to exhaust all reasonable possibilities of collection before initiating foreclosure or assignment. This proposed regulation is necessary to ensure that Servicers meet standards for serving Section 184 Guaranteed in default and provide Borrowers with a good faith consideration of available Loss Mitigation options to avoid default, foreclosure, or both. This section is designed to ensure that risks to the Fund are minimized, and that all available reasonable loan collection and Loss Mitigation options have been considered by the Servicer. This proposed section is consistent

with current program policy, practice, and/or procedure.

Default notice to Borrower § 1005.731. This section outlines the proposed requirements for contacting a defaulted Borrower, including live contact and written notice. This includes a requirement to contact all Borrowers, whether they live in the same or different locations. Servicers are required to establish or make good faith efforts to establish live contact with a defaulting Borrower no later than the 36th Day of the Borrower's default and promptly inform the Borrower about the availability of Loss Mitigation options. This section also would provide that Servicers must give written notice to each Borrower in default no later than the end of the 45th Day of a Borrower's default. This section also governs what must be included in the required written notice and would provide that nothing in this section shall require a Servicer to communicate with a Borrower in a manner otherwise prohibited by applicable Tribal, Federal, or State law. This section is necessary to ensure that Servicers present a minimum level of notice of default and consider Loss Mitigation options to prevent foreclosure and other unnecessary losses and risks to the Fund. HUD is proposing this addition consistent with current program practices, policies, and/or procedures and to conform to CFPB regulations and industry standards.

Loss mitigation application, timelines, and appeals § 1005.733. This section would provide specific expectations when a Servicer processes a Borrower's Loss Mitigation application. It proposes to provide five Days to acknowledge receipt of the application, determine if the application is complete or incomplete, and, if incomplete, notify the Borrower of documentation that is still required and inform the Borrower that submission of the missing documents must occur within fourteen Days. Within fourteen Days of receipt of a complete application, the Servicer must evaluate the application.

This section also would provide that Servicers are required to provide written notification: (1) of all available Loss Mitigation options; (2) to encourage Borrowers to review all available Loss Mitigation options and to contact the Servicer with any questions; (3) to encourage Borrowers to consider pursuing simultaneous Loss Mitigation options; (4) to inform Borrowers that if no Loss Mitigation option is elected or if they fail, the Servicer may proceed with filing of the First Legal Action at 180 Days of default; and (5) to inform Borrowers that at the filing of first legal action or the assignment of the loan to HUD, the Servicer will no longer offer or allow a pre-foreclosure sale as an alternative to foreclosure, and that the only available and remaining alternative to foreclosure will be a lease-in-lieu or deed-in-lieu of foreclosure, subject to applicable Tribal, Federal, or State law. Borrowers may appeal within 14 Days of receipt of the Servicer's Loss Mitigation determination, in writing, that the Servicer re-evaluate the Borrower's Loss Mitigation application. The Servicer will be required to re-evaluate the Borrower's Loss Mitigation application within 30 Days, but may not use the same staff that made the initial Loss Mitigation determination and must notify the Borrower of its appeal decision. If the Borrower submits a timely written appeal, the 180-Day deadline to initiate foreclosure will be suspended during the appeal process. This section is being proposed to provide clear guidelines to both Servicers and Borrowers on the Loss Mitigation application process and associated appeals, to minimize risks and losses to the Fund, and to avoid foreclosure when possible. This proposed section is consistent with current program policy, practice, and/or procedure.

Occupancy inspection § 1005.735. This section proposes occupancy inspection as a visual inspection by the Servicer, defines occupancy follow-up as an attempt to communicate with the Borrower through various means to determine occupancy status, and would provide the

requirements for occupancy inspections and occupancy follow-ups while a Borrower is in default. It also governs occupancy inspections conducted during a Borrower's bankruptcy.

HUD is proposing this regulation to ensure that clear guidelines exist for Servicers governing occupancy inspections. Servicers may find the need to conduct occupancy inspections to determine whether a Property has become vacant or abandoned, and to confirm the identity of any occupants. HUD is requiring Servicers to conduct occupancy follow-ups and to attempt to conduct continuing inspections, if necessary, every 25-35 Days from the last inspection until the occupancy status is determined. This is designed to ensure that Servicers proactively work to determine the status of each Property subject to a loan guaranteed under the program, that is in default, and to minimize costs and risks to the Fund. This proposed section is consistent with current program policy, practice, and/or procedure.

Vacant Property procedures § 1005.737. This section would set forth the requirements when a Property has been determined vacant or abandoned based on an occupancy or occupancy follow-up inspection. This provision includes a notice requirement to the Borrowers of determination of vacancy or abandonment, which is sent to the Property address and all known addresses of Borrowers. If occupancy is found through the delivery confirmation process, the Servicer must continue pursuing Loss Mitigation efforts until the Servicer can proceed to First Legal Action. On the other hand, if the Servicer verifies through the delivery confirmation process or other method that the Property is vacant or abandoned, then the Servicer must secure and maintain the Property through appropriate property preservation actions, initiate the First Legal Action or assign a Trust Land loan to HUD within 120 Days after date of default, continue to perform vacant property inspections every 25-35 Days, and retain documentation in the servicing file.

HUD is proposing this section to ensure that clear guidelines exist for Servicers who manage vacant or abandoned Properties. While not common, a small number of Properties assisted under the Section 184 Program have previously been abandoned. In such cases, it is critical that Servicers remain proactive in verifying the occupancy status of such Properties and ensuring that they are processed and disposed of in a timely manner. Vacant or abandoned Properties can attract criminal activity and serve as an additional blight to Trust Land. These guidelines will also help preserve collateral and prevent unnecessary losses and risks to the Fund. This proposed section is consistent with current program policy, practice, and/or procedure, and aligns with industry standards.

Loss mitigation § 1005.739. This section proposes the Loss Mitigation options and review requirements when a Borrower defaults on a Section 184 Guaranteed Loan. This section would require that Servicers utilize various Loss Mitigation options, if practical, within 180 Days of the date of default. Loss mitigation options include: (1) forbearance plan, (2) assumption, (3) trial payment plan agreement for a loan modification, (4) pre-foreclosure sale, or (5) deed-in-lieu or lease-in-lieu of foreclosure. Within 180 Days of default, if the Borrower is offered a Loss Mitigation option other than loan modification and fails to meet the Loss Mitigation requirements, the Servicer is required, within 5 Days of the Loss Mitigation default, to determine whether the Borrower should continue with the current Loss Mitigation option or reassess the Borrower. If no time or very limited time remains within 180 Days of default, the Servicer will not be required to reassess the Borrower for another Loss Mitigation option.

This section also would provide that if a Borrower is performing under a Loss Mitigation option that does not reinstate the loan at 180 Days of default but subsequently fails to perform, the Servicer must take First Legal Action within 5 Days of the Loss Mitigation option default.

Servicers must maintain documentation of all evaluations and Loss Mitigation actions. Finally, Servicers that fail to engage in and comply with required Loss Mitigation may be subject to enforcement action by HUD, including possible sanctions.

HUD is proposing this addition to the regulation to ensure Servicers review Loss Mitigation options to prevent foreclosures, to maintain Native American Borrowers in their homes, to the extent practicable, and to minimize any resulting losses and risks to the Fund. This proposed section is consistent with current program practices, policies, and/or procedures, and conforms to CFPB regulations and industry standards.

Notice to Tribe and BIA – Borrower Default § 1005.741. This proposed section compliments HUD’s current practice and policy to notify the BIA when a Borrower Defaults on a Section 184 Guaranteed Loan, in accordance with applicable requirements under 25 CFR Part 162. This section also includes a new requirement for Servicers. When given consent by the Borrower, Servicers must notify the Borrower’s Tribe when a Borrower Defaults on Section 184 Guaranteed Loan. This proposed section addresses a request made during Tribal consultation in which Tribal representatives expressed a desire to be notified when a member has Defaulted on their Section 184 Guaranteed Loan, so that the Tribe may provide financial assistance, if available.

Relief for Borrower in military service § 1005.743. This proposed section outlines the options for Borrowers who are in military service, in addition to benefits afforded under other applicable laws, including postponement of principal payments, forbearance, and postponement of foreclosure. This section is being proposed to provide accommodations for Borrowers that are persons in “military service,” as such term is defined in the Servicemembers Civil Relief Act (50 U.S.C. 3901, *et seq.*). This proposed section is consistent with current program policy,

practice, and/or procedure, and aligns with industry standards.

Forbearance plans § 1005.745. This section proposes forbearance options a Servicer may offer to defaulting Borrowers. This section sets out the requirements for informal forbearance, formal forbearance, unemployment forbearance, and servicemember forbearance. Each type has its own agreement requirements, duration period requirements, property condition requirements, and required documents. HUD is proposing this regulation to ensure that several options are available for defaulting Borrowers. This proposed section is consistent with current program policy, practice, and/or procedure, and aligns with industry standards.

Assumption § 1005.747. This section would require Servicers to explore loan assumption as a Loss Mitigation option. HUD is proposing this regulation to provide another Loss Mitigation option for a Borrower that has defaulted on their guaranteed loan. This proposed section is consistent with current program policy, practice, and/or procedure, and aligns with industry standards.

Loan modification § 1005.749. This section proposes loan modifications as a Loss Mitigation option and sets forth the eligibility and qualifications necessary for a Servicer to approve a Borrower's application and the required Property conditions. This section also discusses the use of trial payment plans, the execution of loan modification documents that conform to all applicable Tribal, Federal, and State laws, and when the Servicer must provide modified loan guarantee documents to HUD. HUD is proposing this regulation to provide another Loss Mitigation option for Borrowers in default. This proposed section is consistent with current program policy, practice, and/or procedure.

Pre-foreclosure sale § 1005.751. This section would provide authority for pre-foreclosure sale as a Loss Mitigation option. The requirements specified for this review include:

surchargeable calculation of the Borrower's cash reserve contribution, condition of title for both fee simple and Trust Land Properties, verification of discharge of all junior liens, and listing the Property at no less than the value determined in the required appraisal. The Servicer would be required to send all required pre-foreclosure documentation to HUD and send an approval to participate agreement and required addendum notice to the Borrower.

This section also would provide Tribal notification of the option to assume the Section 184 Guaranteed Loan or purchase the either the Note or the Property. The section sets out the requirements for the Borrower in securing a real estate broker and required clauses in the contract between the Servicer and broker, as well as the time period for the Borrower to market the Property in listings. For all pre-foreclosure sale Properties, the Servicer is required to conduct Property inspections and maintenance, and the Borrower is required to disclose any damage that has occurred immediately. If damage has occurred, the Servicer is required to work with the Borrower to file hazard insurance claims. The section sets out the responsibilities for the seller in receiving sufficient bids, reviewing the sales contract, as well as closing and post-closing responsibilities. The section details early termination initiated by both the Borrower and the Servicer, and how to proceed in the event the Borrower fails to complete the pre-foreclosure sale. HUD is proposing this regulation to provide an additional option for defaulted Borrowers. This is a new loss mitigation option for the Section 184 Program. HUD is proposing this section to give Native American Borrowers comparable loss mitigation options to Borrowers in other loan guarantee programs.

Deed-in-lieu/lease-in-lieu of foreclosure § 1005.753. This section would require the use of deed-in-lieu/lease-in-lieu of foreclosure as a Loss Mitigation option. This section also sets out the required documents to effectuate the transfer and, upon conveyance to HUD, the Servicer

must file for record the required documents within two Days and report to HUD. The Servicer must also comply with all applicable Federal, State, Tribal, and local reporting requirements. HUD is proposing this regulation in order to provide an additional option for Borrowers in default. This proposed section is consistent with current program policy, practice, and/or procedure and aligns with industry standards.

Incentive payments to Borrower § 1005.755. This section proposes that HUD may authorize incentive payments to the Borrower when Borrowers complete certain loss mitigation options and when Borrowers agree to vacate the property after foreclosure to avoid an eviction. This section also proposes that HUD may authorize incentive payments to Lender and Servicer for their completion of certain Loss Mitigation options and incentive payments to Tribes and TDHEs when they assist HUD in the loss mitigation, sale or transfer of the Trust Land property. HUD plans to provide further guidance on the incentives in Section 184 Program Guidance. HUD is proposing this new authority to encourage Borrowers' and Servicers' participation in Loss Mitigation, to avoid the time and expense of foreclosing on the Property and evicting the Borrower after foreclosure.

Property on Trust Land – Tribal first right of refusal; foreclosure or assignment § 1005.757. This section proposes the timeframe in which a Servicer must contact a Tribe or TDHE and offer an option to assume or purchase the Property or the Note under § 1005.757(a) when a defaulted loan pertains to Property that is located on Trust Land, as well as the TDHE or Tribe's acceptance of the offer. This section also allows for the Servicer to choose between foreclosure or assignment to HUD for a defaulted Section 184 Guaranteed Loan located on Trust Lands. HUD is proposing this regulation to clarify options available to the Servicer but also to ensure timely action. This proposed section is consistent with current program policy, practice,

and/or procedure.

Fee simple Properties – foreclosure or assignment with HUD approval § 1005.759. This section proposes the requirement for Servicers to initiate foreclosures or request the ability to assign a defaulted Property to HUD. HUD may approve assignments under limited circumstances. HUD is proposing this regulation in order to ensure that Servicers timely initiate foreclosure proceedings and is consistent with current policy, practice and/or procedure.

First Legal Action deadline and automatic extensions § 1005.761. This section proposes to provide a timeline for the initiation of foreclosure by the Servicer on defaulted Section 184 Guaranteed Loans. This proposed section is consistent with current program policy, practice, and/or procedure and aligns with industry standards.

Assignment of the Section 184 Guaranteed Loan § 1005.763. This section presents the requirements for assigning a defaulted Section 184 Guaranteed Loan to HUD. This proposed section is consistent with current program policy, practice, and/or procedure and aligns with industry standards.

Inspection and preservation of Properties § 1005.765. This section proposes that the Servicer comply with inspection requirements under § 1005.737 when the Servicer knows or should know the Property is vacant or abandoned. The section also proposes to require that the Servicer take action to preserve and protect the Property until conveyance to HUD. HUD is proposing this section in order to ensure the Servicer continues to inspect and preserve the Property. This proposed section is consistent with current program policy, practice, and procedure and aligns with industry standards.

Property condition § 1005.767. This section would mandate the condition of the Property and the Servicer's responsibilities at the time a Property is transferred to HUD through

conveyance or assignment. This proposed section is consistent with current program policy, practice, and/or procedure.

Conveyance of Property to HUD at or after foreclosure; time of conveyance § 1005.769.

This section proposes the methods and timeframe in which a Servicer may convey a Property to HUD after foreclosure, including HUD notification of the conveyance. HUD is proposing this section in order to ensure the Servicer timely conveys the Property to HUD. This proposed section is consistent with current program policy, practice, and/or procedure and aligns with industry standards.

Acceptance of Property by HUD § 1005.771. This section would establish the date which HUD is deemed to have accepted an assignment of a Section 184 Guaranteed Loan, or title to and possession of a Property. HUD is proposing this section to clarify when HUD has accepted title to a conveyed Property. This proposed section is consistent with current program policy, practice, and/or procedure and aligns with industry standards.

H. Claims (Subpart H).

This subpart includes the requirements for Servicers to submit claims to HUD. The subpart is organized into five sections: claims application, submission categories, and types; submission of claims; Property title transfers and title waivers; condition of the Property; and payment of guarantee benefits.

Purpose § 1005.801. This section proposes the purpose of this subpart which is to set forth the requirements applicable to a submission of an application for loan guarantee benefits (Claim submission). It explains that Servicers must comply with regulations presented in subpart H and process details included in Section 184 Program Guidance. This subpart also sets forth

requirements processing and payment of Claim. This proposed section is consistent with current program policy, practice, and/or procedure.

Claim case binder; HUD authority to review records § 1005.803. This section would require Servicers to maintain a Claim case binder for a minimum of five years after the final Claim has been paid and allow HUD access to the case binder. Section 1005.803(b) allows HUD access to the Claim case binder at any time and would provide that Servicer denial of HUD access to any of the files may subject the Servicer to sanctions under §§ 1005.905 and 1005.907. Section 1005.803(c) would provide that the Servicer must make available to HUD any request for Claim files within three business days of the request. This proposed section is consistent with current practices and establishes new timeframes for Servicers to respond to HUD's request for a Claim case binder. These policies are necessary to ensure HUD has appropriate oversight of the program.

Effect of noncompliance § 1005.805. This section proposes to establish the actions HUD may take if a Claim case binder does not comply with the requirements of Subpart D, including: rejecting the claim, paying the claim but demanding reimbursement from the Originating Direct Guarantee Lender, reconveying the Property or reassigning the deed of trust or mortgage in accordance with § 1005.849 and sanctions in accordance with §§ 1005.905 and 1005.907. Further, it would establish actions HUD may take if it finds the Servicer failed to service the Section 184 Guaranteed Loan in accordance with Subpart G, committed fraud, known or should have known of fraud or material misrepresentation in violation of this Part. These include holding the claim to remedy the deficiency, rejecting expenses under § 1005.807(b), reconveying the Property or reassigning the deed of trust or mortgage in accordance with § 1005.849, administrative offset, sanctions in accordance with §§ 1005.905 and 1005.907, and other

remedies as determined by HUD. This section also limits the expenses that can be changed when reconveying the Property or reassigning the deed of trust or mortgage. This proposed section is consistent with current program policy, practice, and/or procedure.

Claim submission categories § 1005.807. This section lists the three Claim submission categories. The three Claim categories are: payment of the unpaid principal balance; reimbursement of eligible reasonable expenses up to assignment, conveyance or transfer of the Property; and supplemental claims for eligible expenses incurred that were omitted from the Servicer's prior submission or for a calculation error made by the Servicer or HUD. This proposed section is consistent with current program policy, practice, and/or procedure.

Claim types § 1005.809. This section would establish five Claim types, which are submitted based on property disposition, timeframes for Claim submission, and the documentation required for each Claim type. The five Claim types are: conveyance; assignment of the loan; post-foreclosure claims without conveyance of title; pre-foreclosure sale; and supplemental claims.

Paragraph (a) would provide for a Claim when the Servicer conveys the Property to HUD after foreclosure or execution of a deed-in-lieu or lease-in-lieu. The Servicer has 45 Days from date the deed to HUD is executed to submit the conveyance Claim. For fee simple properties, the section would require final title policy. For Trust Land Properties, a Title Status Report from the Bureau of Indian Affairs evidencing ownership vested to HUD is required. Where Servicer is unable to obtain a Title Status Report from the Bureau of Indian Affairs, the Servicer may submit a Claim on the 45th Day in accordance with Claim processing instructions that HUD will provide. Lenders must submit claims related to reimbursable eligible expenses no later than the 60th Day of the date the deed is executed to HUD, unless extension of time is given by HUD.

Paragraph (b) describes the assignment of the Section 184 Guaranteed Loan and would require the Servicer to submit a Claim no later than 45 Days from the date of the assignment of the Section 184 Guaranteed Loan to HUD is executed. The section would require the Servicer provide a final title policy or, where applicable, a certified Title Status Report evidencing the assignment of the mortgage to HUD. Where the Servicer is unable to comply with the documentation from title policy or Title Status Report, the Servicer may submit a Claim on the 45th Day in accordance with processing instructions from HUD. For assignment of a Section 184 Guaranteed Loan, the Servicer must submit a Claim for reimbursable expenses, if any, within 45 Days of the date the loan assignment is executed. This section would require the Servicer to certify that the Section 185 Guaranteed Loan is in first lien position and prior to all mechanics' and materialmen's liens filed for record, the amount due and owing under the loan, there are no offsets or counterclaims, the Servicer has good right to assign, and has met the Property inspection and property preservation requirements of this part.

Paragraph (c) explains the post-foreclosure claims without conveyance of title requirements and addresses when a third-party purchases fee simple Properties at foreclosure. The Servicer must submit a Claim to HUD no later than 180 Days from the date the deed to the third-party is executed. Paragraph (d) is the pre-foreclosure sale Claim. It authorizes claims when a Property is sold prior to foreclosure in accordance with HUD's pre-foreclosure sale requirements at §§ 1005.751 or 1005.753. The Servicer must submit a Claim no later than 45 Days from the date the deed or assignment of the lease to the third-party is executed.

Paragraph (e) discusses supplemental claims, and limits Servicers to one supplemental Claim for each Claim related to the payment of unpaid principal balance and reimbursement of eligible reasonable expenses. Paragraph (e) limits supplemental claims to reasonable eligible

expenses incurred on the date of conveyance of the Property or assignment of the Section 184 Guaranteed Loan, when invoices are received after payment of the Claim or when there is a calculation error made by the Servicer or HUD. Supplemental claims must be submitted within six months of when the Servicer files a Claim for reimbursement of eligible reasonable expenses. Any supplemental claims received after the six-month period will not be reviewed or paid by HUD. This section makes clear any supplemental Claim paid by HUD shall be considered final satisfaction of the loan guarantee.

Proposed paragraphs (a) through (d) are consistent with HUD's existing policies, practices, and procedures with the exception of paragraph (b)(4), which proposes to implement a new Servicer certification requirement. Proposed paragraph (e) is consistent, in part, with HUD's existing policies, practices, and procedures, but proposes to add a new requirement that supplemental claims are time limited to a 6-month window. These policies are proposed to ensure HUD maintains its fiduciary duty to protect the Fund and reduce its risk against Claim payments that do not meet Section 184 requirements.

Claims supporting documentation § 1005.811. This section proposes to require Servicers to submit supporting documentation required for each Claim to the satisfaction of HUD. Such documentation will be provided for in Section 184 Program Guidance. This proposed section is consistent with current program policy, practice, and/or procedure.

Up-Front and Annual Loan Guarantee Fee reconciliation § 1005.813. This section proposes to require Lenders to submit, as part of a Claim submission under § 1005.807(b), a reconciliation evidencing the payment of the Annual Loan Guarantee Fee to HUD. This section proposes a new process to ensure Lenders can verify they have paid all Loan Guarantee Fees prior to HUD payment of any claims.

Conditions for withdrawal of Claim § 1005.815. This section provides the conditions under which a Servicer can withdraw a Claim submission after there has been a conveyance. HUD will permit withdrawal of the application when a Servicer accepts a reconveyance of the Property under a deed which warrants against the acts of HUD and all claiming by, through or under HUD, promptly files a reconveyance for record; accepts without continuation the title evidence it furnished to HUD; and reimburses HUD for property expenditures HUD incurred after conveyance to HUD. This proposed section is consistent with HUD's current practice, policy, and or procedure.

Conveyance of Good and Marketable Title § 1005.817. This section proposes to mandate that a Property have good and marketable title when conveyed to HUD from a Lender. This proposed section is consistent with current program, policy and/or practice. Within this section, HUD is proposing a new timeframe in which a Servicer must correct any title defects. HUD is proposing that the Servicer make this correction in 60 days, or the Servicer must reimburse HUD for the cost of holding the Property until any defect is corrected or until HUD reconveys the Property to the Servicer. This proposed time frame is intended to help ensure timely action by the Servicer to correct title defects.

Types of satisfactory title evidence § 1005.819. This section would provide six types of title evidence that may be submitted with a Claim submission. The permissible types of title evidence include: fee or owner's title policy; Lender's policy of title insurance; abstract and legal opinion; torrens or similar certificate; title standard of U.S., Tribal, or State government; and Title Status Report issued by the Bureau of Indian Affairs. This proposed section is consistent with current program policy, practice, and/or procedure.

Coverage of title evidence § 1005.821. This section would establish that evidence of title or Title Status Report shall be executed subsequent to the filing for record of the deed or assignment to HUD. The title evidence must show that, according to public records, there are not, as of the date of the recordation of the deed or assignment to HUD, any outstanding prior liens, including any past due and unpaid ground rents, general taxes, or special assessments, if applicable. This proposed section is consistent with current program policy, practice, and/or procedure.

Waived title objections for Properties on fee simple land § 1005.823. This section would provide that reasonable title objections for fee simple properties shall be waived by HUD. Reasonable title objections will be prescribed in Section 184 Program Guidance. This proposed section is consistent with current program policy, practice, and/or procedure.

Waived title objections for Properties on Trust Land § 1005.825. This section proposes that HUD shall not object to title restrictions placed on Trust Land by a Tribe or the Bureau of Indian Affairs, so long as those restrictions do not adversely impact the Property or marketability. This proposed section is consistent with current program policy, practice, and/or procedure.

Damage or neglect § 1005.827. This section would provide a Lender's responsibilities when a Property has suffered damage or neglect and HUD's remedy when a damaged Property is conveyed to HUD without prior notice or approval. Paragraph 1005.827(a) would provide that if a Property has been damaged by fire, flood, earthquake, tornado, or due to Lender's failure to take action to protect and preserve the Property, the Servicer must submit a Claim to the hazard insurance policy, and the damage must be repaired before conveyance of the Property or assignment of the loan to HUD.

Paragraph (b) would provide that if the property damage is not covered by a hazard insurance policy, the Servicer must notify HUD of the damage. Servicer may not convey until directed to do so by HUD. If HUD requires the Servicer to repair the damage before conveyance, HUD may reimburse Servicer for reasonable payments not in excess of HUD's estimate of the cost of repair, less any insurance recovery or require the Lender to repair the damage before conveyance at the Servicer's own expense.

Paragraph (c) would provide that in the event the Servicer conveys Property to HUD without repair to the damage or without notice to HUD of the damage, HUD may, after notice, reconvey the Property to the Servicer and seek reimbursement for expenses HUD incurred in connection with the conveyance. This proposed section is consistent with current program policy, practice, and/or procedure.

Certificate of Property condition § 1005.829. This section would require a Servicer to submit a certification of Property condition as part of the Claim submission. This section would provide that, as part of the Claim submission, the Servicer certifies the Property was undamaged by fire, flood, earthquake, or tornado, was undamaged due to failure of the Servicer to act, and undamaged while the Property was in possession of the Borrower. Alternatively, if the Property was damaged, the Servicer includes a copy of the HUD approval to convey the Property in damaged condition.

Paragraph (b) would provide that, in the absence of evidence to the contrary, the Servicer's certificate or description of the damage shall be accepted by HUD as establishing the condition of the Property, as of the date of the filing of the deed or assignment of the loan. This proposed section is consistent with current program policy, practice, and/or procedure, and to ensure Servicers confirm the Property is conveyed to HUD undamaged.

Cancellation of hazard insurance § 1005.831. This section proposes to provide that Servicers shall cancel any hazard insurance policy as of the date of the filing for record of the deed to HUD, subject to certain conditions. The conditions include: (1) the amount of the return premium, due to the Servicer because of such cancellation, may be calculated on a “short-rate” basis and reported on fiscal data, and the amount shall be deducted from the total amount claimed; (2) If the Servicer’s calculation of the return premium is less than the actual return, the amount of the difference between the actual refund and the calculated amount shall be remitted to HUD, accompanied by the carrier's or agent's statement; (3) If the Servicer’s calculation of the return premium is more than the actual return, the Servicer may include in its Claim submission, the statement of the amount of the refund from the insurance carrier or agent, and include the amount of the difference as an eligible cost in accordance with § 1005.843(a)(3). This proposed section is consistent with current program policy, practice, and/or procedure.

Method of payment § 1005.833. This section would establish that HUD will make payment of guarantee benefits by electronic transfer of funds for all approved Claim submissions. This proposed section is consistent with current program policy, practice, and/or procedure.

Claim payment not conclusive evidence of Claim meeting all HUD requirements § 1005.835. This section proposes to provide that any payment of Claim by HUD is not conclusive evidence of a Servicer’s compliance with Section 184 Program requirements. HUD reserves the right to conduct post-Claim payment review of any Claim file within 5 years from the date of last Claim payment. This section states when non-compliance with any requirements of this part is identified, HUD may take appropriate post-Claim action against the Servicer. This section is a codification of existing policy, practice, and procedure with the exception of the five-

year period. The proposed five-year period is necessary to ensure uniformity in the time frame for HUD to conduct post-Claim reviews of the loan file.

Payment of Claim: unpaid principal balance § 1005.837. This section would state that HUD will pay claims for unpaid principal balance submitted under § 1005.807(a), minus any receipts for the sale or transfer of the Property. This proposed section is consistent with current program policy, practice, and/or procedure.

Payment of Claim: interest on unpaid principal balance § 1005.839. This section would establish the payment timeframe for interest payments on the unpaid principal balance. HUD shall pay interest on the unpaid principal balance from the date of default to the earlier of the following: the execution of the deed to the Lender, HUD, or third-party; execution of conveyance of deed to either Lender, HUD, or third-party; execution of the assignment of the loan to HUD; or expiration of the reasonable diligence timeframes as prescribed by Section 184 Program Guidance. This proposed section is consistent with current program policy, practice, and/or procedure and aligns with industry standards.

Payment of Claim: reimbursement of eligible and reasonable costs § 1005.841. This section proposes to provide that reimbursement of eligible and reasonable costs under § 1005.807(b) shall be paid as part of the guarantee benefits. HUD will prescribe reasonable costs that are eligible for reimbursement in Section 184 Program Guidance. This proposed section is consistent with current program policy, practice, and/or procedure and aligns with industry standards.

Reductions to the Claim submission amount § 1005.843. This section proposes the circumstances under which Lenders should reduce their Claim amount. The Servicer shall reduce its Claim when the following amounts are received by the Lender: amounts received by the

Servicer instituting foreclosure or acquisition of the Property by direct conveyance or otherwise after default; amounts received by the Servicer from any source relating to the Property on the account of rent or other income after deducting reasonable expenses incurred in handling the Property; and all cash retained by the Lender, including amounts held or deposited for the account of the Borrower or to which is entitled under the loan transaction that have not been applied in reduction of the principal loan indebtedness. This proposed section is consistent with current program policy, practice, and/or procedure and aligns with industry standards.

Rights and liabilities under the Indian Housing Loan Guarantee Fund § 1005.845. This section would state that Borrowers and Lenders shall not have any vested right in the Fund nor be subject to any liability arising under such Fund. In addition, that the Indian Housing Loan Guarantee Fund will be credited and debited in accordance with 12 U.S.C. 1715z-13a(i)(2). This proposed section is consistent with current program policy, practice, and/or procedure and aligns with industry standards.

Final payment § 1005.847. This section would establish the conditions for final payment from HUD to the Lender. Paragraph (a) would provide that payment of the Claim shall be deemed as final payment to the Servicer and that the Servicer would have no further claims against the Borrower or HUD. The provision further states final payment to the Servicer does not preclude HUD from seeking reimbursement of costs and return of amounts from the Servicer when there is a reconveyance to the Lender.

Paragraph (b) would provide that when there is a reconveyance to the Servicer, and the Servicer reimburses HUD for all expenses and returns all Claim amounts paid, the final payment to the Servicer restriction under § 1005.849(a) will not apply. The section makes clear that in the event the Servicer resubmits a Claim after reconveyance to the Servicer, then the Servicer shall

not be reimbursed for any expenses incurred after the date of the HUD conveyance. This proposed section is consistent with current program policy, practice, and/or procedure.

Reconveyance and Reassignment § 1005.849. This section proposes actions HUD may take when there is a reconveyance of a Property or a reassignment of the deed of trust or mortgage back to the Holder. Paragraph (a) would provide that HUD may reconvey the Property to the Holder due to an Originating Direct Guarantee Lender or Servicer's noncompliance with the requirements of this part or if there is a withdrawal of a Claim for benefits in accordance with § 1005.815. Paragraph (b) proposes to provide that HUD may take action against the Holder, including, but not limited to, seeking reimbursement of all Claim costs paid. Paragraph (c) proposes to provide that where HUD has conveyed the Property or reassigned the deed of trust or mortgage back to the Holder, and a Claim is subsequently resubmitted, the Holder will not be reimbursed for any expenses incurred after the date of the HUD conveyance or assignment. This proposed section is consistent with current program policy, practice, and/or procedure and aligns with industry standards.

Reimbursement of expenses to HUD § 1005.851. This section would establish a Holder or the Originating Direct Guarantee Lender reimbursement responsibilities when HUD determines it will reconvey of a Property previously conveyed to HUD under the claims process. This section proposes that when there is a reconveyance or reassignment by HUD, to the Holder or the Originating Direct Guarantee Lender, or when HUD determines noncompliance, the Holder or the Originating Direct Guarantee Lender shall reimburse HUD for all Claim costs paid, HUD's cost of holding the Property, and reimbursement plus interest on the loan guarantee benefits from the date the loan guarantee benefits were paid to the date HUD receives the refund from the Holder. The interest rate shall be in conformity with the Treasury Fiscal Requirements

Manual. This proposed section is consistent with current program policy, practice, and/or procedure and aligns with industry standards.

I. Lender Monitoring, Reporting, Sanctions and Appeals (Subpart I).

Performance reviews § 1005.901. This section would establish HUD's authority to conduct periodic performance reviews of Direct Guarantee Lenders, Non-Direct Guarantee Lenders, Holders and Servicers. These reviews will include, but are not limited to, an evaluation of compliance with this regulation. Monitoring reviews ensure that Direct Guarantee Lenders, Non-Direct Guarantee Lenders, Holders and Servicers are complying with the requirements of the program and reduces risk to the Fund. This proposed section is consistent with current program policy, practice, and procedure and aligns with industry standards.

Reporting and certifications § 1005.903. This section proposes to mandate Direct Guarantee Lenders, Non-Direct Guarantee Lenders, or Servicers provide timely and accurate reports and certifications to HUD and provides HUD the authority to subject the Lender to sanctions for failure to submit such documents. This proposed section is consistent with current program policy, practice, and/or procedure.

Notice of sanctions § 1005.905. This section would state that HUD will provide notice to the Direct Guarantee Lender, Non-Direct Guarantee Lender, Holder or Servicer of the specific-noncompliance and, where applicable, allow for a reasonable time to return to compliance, prior to any sanctions or civil money penalties. If the Direct Guarantee Lender, Non-Direct Guarantee Lender, Holder or Servicer fails to return to compliance, HUD shall provide written notice of the sanction or civil money penalties to be imposed and the basis for the action. This proposed section is consistent with current program policy, practice, and/or procedure and aligns with industry standards.

Sanctions and civil money penalties § 1005.907. This section proposes that sanctions and civil money penalties may be imposed by HUD when a Direct Guarantee Lender, Non-Direct Guarantee Lender, Holder or Servicer fails to comply with this part. Such compliance may include complying with Section 184 Program Guidance when it specifically provides reasonable times, processes, and procedures for complying with Part 1005 requirements. This includes: termination from the program; bar the Direct Guarantee Lender, or Holder from acquiring additional loans guaranteed under this section; require that the Direct Guarantee Lender assume not less than 10 percent of any loss on further loans made by the Direct Guarantee Lender; require that the Direct Guarantee Lender, Non-Direct Guarantee Lender, Holder or Servicer comply with a corrective action plan or amend Direct Guarantee Lender, Non-Direct Guarantee Lender, or Servicer's quality control plan; or impose a civil money penalty on the Direct Guarantee Lender, Non-Direct Guarantee Lender, Holder or Servicer in the manner and amount provided pursuant to Section 184 of the Native American Assistance and Self-Determination Act of 1996 (12 U.S.C. 1715z-13a) and 24 CFR part 30 . This proposed section is statutorily authorized and is intended to protect the Fund and Section 184 Program integrity by allowing HUD to sanction poorly performing Direct Guarantee Lenders, Non-Direct Guarantee Lenders, Holders or Servicers.

Appeals process § 1005.909. This section would establish an appeal process for Non-Direct Guarantee Lenders, Direct Guarantee Lenders and Servicers to appeal a denial of participation in the Section 184 Program and to appeal sanctions or civil money penalties imposed pursuant to § 1005.907. This proposed section is intended to provide Lenders the opportunity to appeal a decision to HUD for HUD's reconsideration.

HUD's Part 58 Regulations

Currently Tribes may elect to assume environmental responsibility for Section 184 Guaranteed Loans pursuant to 24 CFR part 58, requiring Tribes to ensure applicable environmental requirements are met. HUD proposes to not have Tribes assume environmental responsibility for the Section 184 Program for fee simple Properties that are located outside of a reservation in order to streamline the environmental review process and relieve the burden upon Tribes. It is impractical to have a Tribe assume environmental responsibilities for Section 184 Guaranteed Loans on fee simple Properties outside of a reservation, which may be located far from the reservation of the Borrower's Tribe. Forgoing Tribal involvement and responsibility for Federal environmental review on such properties will increase the efficiency in providing HUD assistance, as well as relieve the Tribes of a burden. Accordingly, the proposed rule would revise § 58.1(b), which lists the programs that are subject to part 58, to indicate that Indian Housing Loan Guarantees under Section 184 are subject to part 58 for Properties on trust land and on fee land within a reservation. Thus, Properties not on trust land not on fee land within a reservation shall be subject to § 50.19(b)(17).

For loan guarantees that are subject to Part 58, Part 58 indicates which activities are categorically excluded from environmental assessment under the National Environmental Policy Act (42 U.S.C. 4321, *et seq.*) (NEPA) and which categorically excluded activities remain subject to related Federal environmental laws and authorities listed in § 58.5. HUD's existing regulation at § 58.35(b) lists a number of programs that are categorically excluded from assessment under NEPA and not subject to such related authorities, and this proposed rule would add to the list HUD's guarantee of loans for one- to four-family dwellings under the Direct Guarantee procedure for the Section 184 Program where there is no review or approval of the application for the loan guarantee by HUD or the responsible entity, or approval of the loan guarantee by

HUD, before the execution of the contract for construction or rehabilitation and the loan closing.¹

The proposed rule would update HUD's categorical exclusions and increase efficiency in providing HUD assistance, as well as reducing reduce costs associated with HUD's environmental review process to eliminate unnecessary regulatory burdens that impede affordable housing development.

Specific Question for Comment - Environmental Regulations

HUD invites comments on the proposal to shift environmental responsibility from Tribes to HUD for fee simple Properties that are located outside of a reservation.

III. Tribal Consultation

HUD's policy is to consult with Indian Tribes early in the rulemaking process on matters that have Tribal implications. Accordingly, HUD began consulting with Indian Tribes in February 2018. HUD held eleven in-person Tribal consultation sessions before the regulations in this proposed rule were drafted. As draft subparts of the regulation were completed, HUD held three additional in-person consultations to solicit Tribal feedback on each subpart. On April 4, 2019, HUD sent out a copy of the full draft proposed rule to all Tribal leaders and directors of TDHEs for review and comment. The Tribal comment period was originally from April 4, 2019, to June 4, 2019, but it was extended to June 30, 2019, after Tribal leaders requested more time to review the draft proposed rule. During this time, HUD also held two in-person Tribal consultations and two national teleconferences to review the draft proposed rule.

¹ A comparable categorical exclusion for loan guarantees under the Section 184 Direct Guarantee procedure is already contained in 24 CFR part 50, which applies when a Tribe declines to assume environmental review responsibilities and HUD performs any required environmental review. See 24 CFR 50.19(b)(17). The proposed exclusion under Part 58 would adapt the existing exclusion to apply when a Tribe assumes environmental responsibilities, where there is no HUD review or approval of the application for the loan guarantee by HUD or the responsible entity, or approval of the loan guarantee by HUD before the completion of construction or rehabilitation and the loan closing.

Tribal feedback has been an integral part of the process to develop this proposed rule. Throughout the consultation process, HUD used Tribal feedback to refine and improve this proposed rule. Tribal comments included areas such as Lender relationships and qualifications, loan limits, rate and fees, loan processing, Borrower qualifications, eligible units, Section 184 Approved Program Area, Tribal courts, and Tribal involvement. HUD considered all written comments submitted to HUD, as well as recorded comments received from in-person Tribal consultation sessions, and revised the proposed rule as appropriate.

IV. Findings and Certifications

Regulatory Review—Executive Orders 12866 and 13563

Executive Orders 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both the costs and benefits of reducing costs, of harmonizing rules, and of promoting flexibility.

Under Executive Order 12866 (Regulatory Planning and Review), a determination must be made whether a regulatory action is significant and, therefore, subject to review by OMB in accordance with the requirements of the order. This proposed rule, as discussed above, would introduce changes to make the program sustainable, protect Borrowers, address recommendations by the OIG in areas such as Lender underwriting and the claims process, and provide clarity for new and existing Lenders who participate in the Section 184 Program. These changes would allow for Lenders to serve the growing demand for the program and introduce stronger governing regulations to reduce the increased risk to the Fund.

Many current and potential Section 184 Lenders and Servicers participate in the FHA single family mortgage program. Where appropriate, aligning the new Section 184 regulations with the FHA single family mortgage program regulations should also minimize costs to new and existing Lenders. Additionally, clarifying servicing requirements will protect the Borrowers by requiring Servicers to consider Loss Mitigation options for Borrowers. Moreover, the added requirements and protections will help to reduce losses to the Fund and thereby allow the Section 184 Program to provide additional loans and decrease the cost of the loans to eligible Borrowers.

This rule was determined to be a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and therefore was reviewed by OMB. However, this rule was not deemed to be economically significant. Because program participants have long followed the substantive standards that this rule would establish, HUD anticipates that this rule will have little to no economic effect.

The docket file is available for public inspection in the Regulations Division, Office of General Counsel, Room 10276, 451 7th Street, SW, Washington, DC 20410-0500. Due to security measures at the HUD Headquarters building, please schedule an appointment to review the docket file by calling the Regulations Division at 202-708-3055 (this is not a toll-free number). Individuals with speech or hearing impairments may access this number via TTY by calling the Federal Relay Service at 800-877-8339 (this is a toll-free number).

Paperwork Reduction Act

Currently, the Section 184 Program has an existing information collection requirement previously approved by the OMB under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) and assigned OMB control number 2577-0200. The proposed rule would modify some of the documents in this information collection and would create new documents to bring additional

efficiency and accountability to the program. In accordance with the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number.

The proposed rule would amend the existing Lender and Direct Guarantee Lender application process. Under § 1005.207, HUD would require all Lenders to select a level of participation in the Section 184 Program on a form prescribed by HUD. This form requests detailed information about the Lender, in addition to the participation level. This proposed revision of the Lender application process would allow HUD to more closely track how many, and the type of, Lenders participating in the program. The proposed rule would request information that would give HUD further assurances that the Lenders participating in the Section 184 Program have the experience, staffing, and financial resources to follow program guidelines.

Currently the Section 184 Program uses FHA forms as part of securing a loan on a manufactured home, assumptions, and pre-foreclosure sale process. This has led to confusion by Lenders over which information to submit, since the Section 184 Program may require the same information collected on the FHA form. As part of the proposed rule, under §§ 1005.429(a)(3)(iv), 1005.711(c), 1005.751(h)(1), 1005.751(s)(2) and 1005.751(t)(1), HUD would develop and gain approval, when required, of forms similar to the FHA documents, but specific to the Section 184 Program, which would reduce the paperwork burden on the Lenders.

The proposed rule would establish new requirements in the areas of annual Lender and Tribal Recertification §§ 1005.223(a) and 1005.307 to provide additional accountability when changes occur that might impact a Lender or Tribe's eligibility for the program. The proposed rule would establish new requirements for Tribal application under § 1005.303 to clarify the

information a Tribe needs to submit when seeking HUD approval of eligibility to guarantee loans on a its Tribal Land.

Based on comments received during Tribal consultation, the proposed rule at § 1005.501(j), would establish a new loan closing document, signed by the Borrower, in which the Borrower may elect to authorize the Lender to notify the Borrower's Tribe in the event of default. Tribes requested this notification so they may assist the Borrower with default if such assistance was available.

Under § 1005.769(b), HUD has new requirement for Lenders conveying a property to HUD at or after foreclosure, to submit a notification of conveyance advising HUD of the filing of such conveyance.

The total annual estimated paperwork burden for the proposed rule is 520.41 hours. The overall new paperwork burden for the proposed rule, as compared to the burden under the previous rule, is 303.7 hours. The bulk of this time is related to the new loan closing document required in § 1005.501(j), which would allow the Borrower to elect Tribal notification in the event of default. This form would be required for each loan guaranteed by the program. The estimated burden for this form is 5 minutes, and the program's total loan volume is 3,750 loans for a total of 187.5 hours of estimated annual burden.

The burden of the information collections in this rule is estimated as follows:

REPORTING AND RECORDKEEPING BURDEN:

Section Reference	Number of Respondents	Number of Responses Per Respondent	Estimated Average Time for Requirement (in hours)	Estimated Annual Burden (in hours)
1005.207	32	1	0.08	2.56

Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) (5 U.S.C. 601, *et seq.*), generally requires an agency to conduct a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. As discussed above, this rule would provide clarity for new and existing Lenders who participate in the Section 184 Program. Participation in the Section 184 Program is voluntary. HUD does not believe the additional requirements will have a significant impact on small entities.

Notwithstanding HUD's determination that this rule will not have a significant economic impact on a substantial number of small entities, HUD specifically invites comments regarding less burdensome alternatives to this rule that will meet HUD's objectives, as described in this preamble.

Executive Order 13132, Federalism

Executive Order 13132 (entitled "Federalism") prohibits an agency from publishing any rule that has Federalism implications if the rule either imposes substantial direct compliance costs on State and local governments and is not required by statute, or the rule preempts State law, unless the agency meets the consultation and funding requirements of section 6 of the Executive Order. This proposed rule would not have Federalism implications and would not

impose substantial direct compliance costs on State and local governments or preempt State law within the meaning of the Executive Order.

Environmental Impact

A Finding of No Significant Impact (FONSI) with respect to the environment has been made in accordance with HUD regulations at 24 CFR part 50, which implement Section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)). The FONSI is available for public inspection at <https://www.hud.gov/codetalk> and between 8 a.m. and 5 p.m. weekdays in the Regulations Division, Office of General Counsel, Department of Housing and Urban Development, 451 7th Street SW, Room 10276, Washington, DC 20410–0500. Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4; approved March 22, 1995) (UMRA) proposes to establish requirements for Federal agencies to assess the effects of their regulatory actions on state, local, and Tribal governments, and on the private sector. This proposed rule does not impose any Federal mandates on any state, local, or Tribal government, or on the private sector, within the meaning of the UMRA.

(c) *Time restrictions on re-sales.* (1) *General.* The eligibility of a Property for a Loan guaranteed by HUD is dependent on the time that has elapsed between the date the seller acquired the Property (based upon the date of settlement) and the date of execution of the sales contract that will result in the HUD guarantee (the re-sale date). The Direct Guarantee Lender shall obtain documentation verifying compliance with the time restrictions described in this paragraph and must submit this documentation to HUD as part of the application for Section 184 Guaranteed Loan, in accordance with § 1005.501.

(2) *Re-sales occurring 90 Days or less following acquisition.* If the re-sale date is 90 Days or less following the date of acquisition by the seller, the Property is not eligible for a Loan to be guaranteed by HUD.

(i) If the re-sale date is more than 90 Days after the date of acquisition by the seller, but before the end of the twelfth Month after the date of acquisition, the Property is eligible for a Loan to be guaranteed by HUD.

(ii) However, HUD may require that the Direct Guarantee Lender provide additional documentation to support the re-sale value of the Property if the re-sale price is 5 percent or greater than the lowest sales price of the Property during the preceding 12 Months (as evidenced by the contract of sale). At HUD's discretion, such documentation must include, but is not limited to, a second appraisal from a different appraiser. HUD may exclude re-sales of less than a specific dollar amount from the additional value documentation requirements.

(iii) If the additional value documentation supports a value of the Property that is more than 5 percent lower than the value supported by the first appraisal, the lower value will be used

to calculate the maximum principal loan amount under § 1005.443. Otherwise, the value supported by the first appraisal will be used to calculate the maximum principal loan amount.

(iv) Additional value documentation may be prescribed by notice for comment.

(5) *Re-sales occurring more than 12 Months following acquisition.* If the re-sale date is more than 12 Months following the date of acquisition by the seller, the Property is eligible for a loan guaranteed by HUD.

(4) If an annual recertification is not submitted by the reasonable deadline as prescribed in Section 184 Program Guidance, HUD may subject the Servicer to sanctions under § 1005.907.

(h) *Program Ineligibility.* Servicer may be deemed ineligible for Section 184 Program participation when HUD becomes aware that the entity or any officer, partner, director, principal, manager or supervisor of the entity was:

(1) Suspended, debarred, under a limited denial of participation (LDP), or otherwise restricted under 2 CFR part 2424, or under similar procedures of any other Federal agency

(2) Indicted for, or have been convicted of, an offense that reflects adversely upon the integrity, competency, or fitness to meet the responsibilities of the Servicer to participate in the Title I or Title II programs of the National Housing Act, or Section 184 Program;

(3) Found to have unresolved findings as a result of HUD or other governmental audit, investigation, or review;

(4) Engaged in business practices that do not conform to generally accepted practices of prudent Servicers or that demonstrate irresponsibility;

(5) Convicted of, or have pled guilty or nolo contendere to, a felony related to participation in the real estate or mortgage Loan industry during the 7-year period preceding the date of the application for licensing and registration, or at any time preceding such date of application, if such felony involved an act of fraud, dishonesty, or a breach of trust or money laundering;

(6) In violation of provisions of the Secure and Fair Enforcement Mortgage Licensing Act of 2008 (12 U.S.C. 5101, *et seq.*) or any applicable provision of Tribal or State law; or

(7) In violation of 12 U.S.C. 1715z-13a or any other requirement established by HUD.

(i) *Records Retention.* Servicers must maintain the servicing case binder for a period of three years beyond the date of satisfaction or maturity date of the Loan, whichever is sooner. However, where there is a payment of Claim, the Claim case binder must be retained for a period of at least five years after the final Claim has been paid. Section 184 Program Guidance shall prescribe additional records retention time depending on the circumstances of the Claim.

§ 1005.709 Providing information to Borrower and HUD.

(a) Servicers shall provide Section 184 Guaranteed Loan information to Borrowers and arrange for individual loan consultation on request. The Servicer must establish written procedures and controls to assure prompt responses to inquiries. At a minimum, the Servicer must provide contact information to the Borrower in accordance with 12 CFR 1024.36 and 1026.41, including:

- (1) A written address a Borrower can use to request and submit information; and
- (2) A toll-free telephone number a Borrower can use to verbally ask questions and seek information.

(b) All Borrowers must be informed of the system available for obtaining answers to loan inquiries, the Servicer's office from which needed information may be obtained, and reminded of the system at least annually.

(c) Within 30 Days after the end of each calendar year, the Servicer shall furnish to the Borrower a statement of the interest paid, and of the taxes disbursed from the escrow account during the preceding year.

(d) At the Borrower's request, the Servicer shall furnish a statement of the escrow account sufficient to enable the Borrower to reconcile the account.

(e) Each Servicer of a Section 184 Guaranteed Loan shall deliver to the Borrower a written notice of any transfer of the Servicing of the Section 184 Guaranteed Loan. The notice must be sent in accordance with 12 CFR 1024.33(b)(3) and shall contain the information required by 12 CFR 1024.33(b)(4). Servicers must respond to Borrower inquiries pertaining to the transfer of Servicing in accordance with 12 CFR 1024.33.

(f) Servicers must respond to HUD's written or electronic requests for information concerning individual accounts within a reasonable timeframe established by Section 184 Program Guidance, or the deadline placed by other applicable law, whichever is sooner.

§ 1005.711 Assumption and release of personal liability.

(a) *Assumption.* Section 184 Guaranteed Loans may be fully assumed by eligible substitute Borrowers, if such assumption is approved by HUD and other required parties, including but not limited to a Tribe, TDHE, or the BIA. HUD approval will be based on the following:

(1) *Creditworthiness.* At least one person acquiring ownership must be determined to be creditworthy under Subpart D. If the Servicer is approved as a Direct Guarantee Lender, the Servicer performs a creditworthiness determination under § 1005.409. If the Servicer is not approved as a Direct Guarantee Lender, then the Servicer shall request a creditworthiness determination in a manner prescribed by Section 184 Program Guidance.

(2) *Trust Lands.* (i) The lease document may require Tribal and BIA approval of the assignment of the lease to the new Borrower. Servicers shall not proceed to closing on the assumption until and unless the Tribe has assigned the leasehold to the new Borrower, and it has been approved by the BIA.

(ii) The lease may contain other conveyance restrictions. Servicer must review the lease for conveyance restrictions and ensure the lease complies with § 1005.303(b)(2).

(b) *Fees.* The Servicer may collect from the Borrower the following fees and costs:

(1) A charge to compensate the Direct Guarantee Lender for reasonable and necessary expenses incurred as part of the assumption review and processing. HUD may establish limitations on the amount of any such charge.

(2) Reasonable and customary costs, but not more than the amount actually paid by the Direct Guarantee Lender, for any of the following items: credit report, verification of employment and the execution of additional release of liability forms.

(3) Additional fees and costs over and above the assumption fee and reasonable and customary costs cannot be assessed.

(c) *Release of liability.* At closing, the Servicer must release the existing Borrower from any personal liability on a form approved by HUD; the eligible and approved substitute Borrower assumes personal liability of the Section 184 Guaranteed Loan when the release is executed.

(d) *Modification of Loan Guarantee Certificate.* Upon completion of an assumption, the Servicer shall submit copies of the documentation required in this section to HUD, in a manner and form prescribed by HUD. HUD will subsequently issue a revised Loan Guarantee Certificate.

§ 1005.713 Due-on-sale provision.

A Section 184 Guaranteed Loan shall contain a due-on-sale clause permitting acceleration, in a form prescribed by Section 184 Program Guidance. The Servicer shall promptly advise HUD of any sale or other transfer that occurs without the approval of the Direct Guarantee Lender. If acceleration is permitted by applicable Tribal, Federal, or State law, the Servicer shall certify as to the legal authority and seek HUD's approval, in a form and manner prescribed by Section 184 Program Guidance. Within 30 Days of receipt of HUD approval to accelerate, the Servicer shall notify the Borrower of Default and acceleration.

§ 1005.715 Application of Borrower payments.

(a) Servicer shall comply with § 1005.509 with respect to the application of Borrower payments. The Servicer shall apply the payments in the following order:

(1) Escrow items, including Monthly payments of the Annual Loan Guarantee Fee, rents, taxes, special assessments, and if required, flood insurance, fire and other hazard insurance premiums;

(2) Interest accrued on the Section 184 Guaranteed Loan;

(3) Principal of the Section 184 Guaranteed Loan; and

(4) Late charges, if permitted under the terms of the Section 184 Guaranteed Loan and subject to such conditions as HUD may prescribe.

(b) Partial Payments shall be applied in accordance with § 1005.723.

§ 1005.717 Administering escrow accounts.

(a) The Servicer shall not use escrow funds for any purpose other than that for which they were received. It shall segregate escrow commitment deposits, work completion deposits, and all periodic payments received on account of leasehold rents, taxes, assessments, Monthly payments of Annual Loan Guarantee Fee, and insurance charges or premiums, and shall deposit such funds with one or more financial institutions in a special account or accounts that are fully insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration.

Leasehold rents on Trust Lands may require additional escrow segregation by Servicer's which HUD will prescribe in Section 184 Program Guidance.

(b) It is the Servicer's responsibility to ensure timely escrow disbursements and their proper application. Servicers must establish controls to ensure that accounts payable from the escrow account or the information needed to pay such accounts payable is obtained on a timely basis. Penalties for late payments for accounts payable from the escrow account must not be

charged to the Borrower or HUD unless the Servicer can show that the penalty was the direct result of the Borrower's error or omission. The Servicer shall further comply with all requirements set forth in 12 CFR 1024.17, including method of calculations related to escrow, the methods of collection and accounting, and the payment of the accounts payable for which the money has been escrowed.

(c) The Servicer shall not initiate foreclosure for escrow account shortfalls resulting from advances made pursuant to this section.

(d) When a Loan Guarantee Certificate is terminated voluntarily or due to Borrower's prepayment, in total satisfaction of the Section 184 Guaranteed Loan, amounts in the escrow account designated to pay any HUD required program fees shall be remitted to HUD in a form approved by HUD at the time of the required reporting related to the voluntary termination or prepayment. When a Section 184 Guaranteed Loan is prepaid in full, amounts held in escrow for taxes, hazard insurance, or rents, if applicable, that are not yet due or incurred, shall be released to the Borrower.

§ 1005.719 Fees and costs after endorsement.

(a) After endorsement, the Servicer may collect reasonable and customary fees and costs from the Borrower only as provided below. The Servicer may collect these fees or costs from the Borrower only to the extent that the Servicer is not reimbursed for such fees or costs by HUD. Permissible fees and costs include:

(1) Late fee in accordance with § 1005.511;

(2) Costs for processing or reprocessing a check returned as uncollectible (where bank policy permits, the Servicer must deposit a check for collection a second time before assessing an insufficient funds charge);

- (3) Fees for processing a change of ownership of the Property;
- (4) Fees and costs for processing an assumption of the Section 184 Guaranteed Loan in connection with the sale or transfer of the Property;
- (5) Costs for processing a request for credit approval incurred in the course of processing an assumption or substitute Borrower;
- (6) Costs for substitution of a hazard insurance policy at other than the expiration of term of the existing hazard insurance policy;
- (7) Costs for modification of the Section 184 Guaranteed Loan requiring recordation of the agreement, including those for extension of term or re-Amortization;
- (8) Fees and costs for processing a partial release of the Property;
- (9) Attorney's and trustee's fees and costs actually incurred (including the cost of appraisals and advertising) when a Section 184 Guaranteed Loan has been referred to foreclosure counsel and subsequently the Section 184 Guaranteed Loan is reinstated. No attorney's fee and cost that exceeds the reasonable limits prescribed by Section 184 Program Guidance may be collected from the Borrower, unless approved by HUD;
- (10) A trustee's fee, if the Security instrument provides for payment of such a fee, for execution of a satisfactory release when the deed of trust is paid in full;
- (11) Where permitted by the Security instrument, attorney's fees and costs actually incurred in the defense of any suit or legal proceeding wherein the Servicer shall be made a party thereto by reason of the Section 184 Guaranteed Loan. No attorney's fee may be charged for the services of the Servicer's staff attorney or other employee;
- (12) Property preservation costs incurred, subject to reasonable limits prescribed by Section 184 Program Guidance, or otherwise approved by HUD;

(13) Fees permitted for providing a beneficiary notice under applicable Tribal or State law, if such a fee is not otherwise prohibited by applicable law, under 12 CFR 1024.36; and

(14) Such other reasonable and customary costs as may be authorized by HUD.

(b) Reasonable and customary fees must be based upon the actual cost of the work performed, including out-of-pocket expenses. HUD may establish maximum fees and costs which are reasonable and customary in different geographic areas. Except as provided in this part, no fee or costs shall be based on a percentage of either the face amount of the Section 184 Guaranteed Loan or the unpaid principal balance due.

§ 1005.721 Enforcement of late fees.

(a) A Servicer shall not commence foreclosure when the Borrower's only Default is his or her failure to pay a late fee(s).

(b) A late fee that may be assessed under the Section 184 Guaranteed Loan shall not justify return of a payment submission. However, if the Servicer thereafter notifies the Borrower of his obligation to pay a late fee, such a fee may be deducted from any subsequent payment or payments submitted by the Borrower or on his behalf if this is not inconsistent with the terms of the Section 184 Guaranteed Loan. Partial Payments shall be treated as provided in § 1005.723.

(c) A payment submission may be returned because of failure to include a late fee only if the Servicer notifies the Borrower before imposition of the charge of the amount of the Monthly payment, the date when the late fee will be imposed, and either the amount of the late charge or the total amount due when the late fee is included.

(d) During the 60-Day period beginning on the effective date of transfer of the Servicing of a Section 184 Guaranteed Loan, a late fee shall not be assessed. If a payment is received by

the prior Servicer on or before the due date (including any applicable grace period allowed by the Section 184 Guaranteed Loan), no late fees shall be assessed by the new Servicer.

(e) A Servicer shall not assess a late fee for failure to pay a late fee, as prohibited under 12 CFR 1026.36.

§ 1005.723 Partial payments.

(a) A Servicer must have a written policy on how it handles Partial Payments, in compliance with this section and that policy shall be readily available to the public.

(b) Upon receipt of a Partial Payment, a Servicer must provide to the Borrower a copy of the Servicer's written Partial Payment policy and a letter explaining how it will handle the received Partial Payment. The Servicer may:

(1) Accept a Partial Payment and either apply it to the Borrower's account;

(2) Identify it with the Borrower's account number and hold it in a trust account pending disposition; or

(3) Return the Partial Payment(s) to the Borrower.

§ 1005.725 Handling prepayments.

Notwithstanding the terms of the Section 184 Guaranteed Loan, the Servicer shall accept a prepayment at any time and in any amount. Monthly interest on the Section 184 Guaranteed Loan must be calculated on the actual unpaid principal balance of the Section 184 Guaranteed Loan as of the date the prepayment is received, and not as of the next payment due date.

§ 1005.727 Substitute Borrowers.

Where an original Borrower requests the substitution of an existing Borrower on the Section 184 Guaranteed Loan:

(a) A Servicer who is Non-Direct Guarantee Lender or financial institution must obtain HUD approval for the substitution. A remaining original Borrower must be maintained and continue to be personally liable for the Section 184 Guaranteed Loan, notwithstanding any discharge entered in accordance with applicable Tribal, Federal, or State law.

(b) A Servicer who is a Direct Guarantee Lender may, subject to limitations established by HUD, approve an eligible substitute Borrower that meets the requirements for Section 184 Guaranteed Loans which they own or service, and need not obtain further without specific approval from HUD. A remaining original Borrower must be maintained and continue to be personally liable for the Section 184 Guaranteed Loan, notwithstanding any discharge entered in accordance with applicable Tribal, Federal, or State law.

SERVICING DEFAULT SECTION 184 GUARANTEED LOANS

§ 1005.729 Section 184 Guaranteed Loan collection action.

A Servicer shall take prompt action to collect amounts due from Borrowers to minimize the number of accounts in Default status. The Servicer must exhaust all reasonable possibilities of collection, including assessing the Borrower's financial circumstances for Loss Mitigation options in accordance with § 1005.739.

§ 1005.731 Default notice to Borrower.

(a) *Live contact.* (1) The Servicer shall establish or make good faith efforts to establish live contact with a Borrower in Default not later than the 36th Day of the Borrower's Default and, promptly after establishing live contact, inform such Borrower about the availability of Loss Mitigation options.

(2) A good faith effort to establish live contact consists of reasonable steps under the circumstances to reach a Borrower, including telephoning a Borrower on more than one occasion

and, if unable to establish live contact, sending written or electronic communication encouraging a Borrower to establish live contact with the Servicer.

(b) *Written notice.* The Servicer shall give written notice of Default to the Borrower, in a format approved by HUD, no later than the end of the 45th Day of a Borrower Default. The Servicer must contact the Borrower, whether the Borrower lives in the same or a different location. If an account is reinstated and again enters Default, a new Default notice shall be sent to the Borrower, except that the Servicer is not required to send a second Default notice to the same Borrower more often than once during any 180-Day period. The Servicer may give additional or more frequent notices of Default, at its discretion.

(c) *Content of the written notice.* The notice required by paragraph (b) of this section shall include:

- (1) A statement encouraging the Borrower to contact the Servicer;
- (2) Servicer contact information, including but not limited to the telephone number to access Servicer personnel and the Servicer's mailing address;
- (3) A statement providing a brief description of examples of Loss Mitigation options that may be available from the Servicer and a statement how a Borrower may obtain more information about Loss Mitigation options;
- (4) An outline of all critical Servicing deadlines under this subpart, including but not limited to the Servicer timeframe for evaluating a complete Loss Mitigation application, deadline for Borrower to select a Loss Mitigation option, Tribal notice under § 1005.757(a), if applicable, and the process for filing First Legal Action;
- (5) Disclosure to the Borrower that they may be eligible for additional protections under Consumer Financial Protection Bureau regulations;

(6) A Loss Mitigation application and submission instructions, including a statement that delays in submission of the Loss Mitigation application or incomplete submissions shall reduce the availability of certain Loss Mitigation options to the Borrower;

(7) The manner in which a Borrower can access the HUD list of homeownership counselors or counseling organizations, including a website(s) or toll-free telephone(s); and

(8) A statement informing the Borrower that the Servicer may make information available to local credit bureaus and prospective creditors.

(d) *Conflicts with other law.* Nothing in this section shall require a Servicer to communicate with a Borrower in a manner otherwise prohibited by applicable Tribal, Federal, or State law.

§ 1005.733 Loss mitigation application, timelines, and appeals.

(a) *Servicer response to Loss Mitigation application.* Within five Days after the Servicer receives the Borrower's Loss Mitigation application, the Servicer must, in writing:

(1) Acknowledge receipt of the application;

(2) Determine if the application is complete or incomplete;

(3) If incomplete, notify the Borrower which documentation is required and missing, and that submission of the missing documents is required no later than fourteen Days from the date of the response to provide missing documents to the Servicer. If Borrower does not timely submit the requested documents, the Servicer must initiate live contact with the Borrower.

(b) *Servicer timeframe for evaluating complete Loss Mitigation application.* Within fourteen Days of receipt of a complete application from Borrower, the Servicer must evaluate the application.

(c) *Notification of Servicer determination.* The Servicer shall provide written notification:

(1) Informing the Borrower of all available Loss Mitigation options;

(2) Encouraging the Borrower to review all available Loss Mitigation options and to contact the Servicer with any questions;

(3) Encouraging Borrowers, when feasible, to consider pursuing simultaneous Loss Mitigation options, to the extent it is offered by the Servicer;

(4) Informing the Borrower that if no Loss Mitigation option is elected or if all elected Loss Mitigation options fail, the Servicer may proceed with Tribal notice under § 1005.757(a) or First Legal Action at 180 Days of Default in accordance with §§ 1005.757 or 1005.761; and

(5) Informing the Borrower that, upon First Legal Action or the assignment of the Section 184 Guaranteed Loan to HUD, the Servicer may no longer offer or authorize a pre-foreclosure sale as an alternative to foreclosure, and that the primary alternative to foreclosure shall be a deed-in-lieu/lease-in-lieu of foreclosure, subject to applicable Tribal, Federal, or State law or contractual requirements.

(d) *Appeal.* (1) If, after the Borrower receives the Servicer's Loss Mitigation options, the Borrower disagrees with Servicer's Loss Mitigation determination, the Borrower may appeal in writing and request that the Servicer re-evaluate the Borrower's Loss Mitigation application. The Borrower must submit its appeal no later than 14 Days from the date of notification of the Servicer's Loss Mitigation determination. Upon receipt of the Borrower's appeal of the Servicer's Loss Mitigation determination, the Servicer shall re-evaluate the Borrower's Loss Mitigation application within thirty Days but may not use the same staff that made the initial Loss Mitigation determination and shall notify the Borrower of its appeal decision in writing.

(2) If the Borrower submits a timely written appeal, the 180-Day deadline for First Legal Action shall be suspended during the appeal process.

§ 1005.735 Occupancy inspection.

(a) *Occupancy inspection.* An occupancy inspection is a visual inspection of a Section 184 Guaranteed Loan Property by the Servicer to determine if the Property is vacant or abandoned and to confirm the identity of any occupants.

(b) *Occupancy follow-up.* An occupancy follow-up is an attempt to communicate with the Borrower via letter, telephone, or other method of communication, other than on-site inspection, to determine occupancy when the Section 184 Guaranteed Loan remains in Default after the initial occupancy inspection that did not result in determination of the Borrower's occupancy status.

(c) *Initial occupancy inspection.* The Servicer must perform the initial occupancy inspection after the 45th Day of Default but no later than the 60th Day of the Default when:

(1) A payment has not been received within 45 Days of the due date or for any other Defaults under the Section 184 Guaranteed Loan; and

(2) Efforts to reach the Borrower or occupant have been unsuccessful.

(d) *Occupancy follow-ups and continued inspections.* If the Servicer is unable to determine the Borrower's occupancy status through the initial occupancy inspection, the Servicer must perform occupancy follow-ups and, if necessary, occupancy inspections every 25-35 Days from the last inspection until the occupancy status is determined.

(e) *Occupancy inspections during bankruptcy.* When payments are not submitted and a Borrower is a debtor in bankruptcy, the Servicer must contact either the bankruptcy trustee or the Borrower's bankruptcy attorney, if the Borrower is represented, for information concerning the

occupancy status of the Property or if an occupancy inspection is necessary or requires authorization. If the Servicer cannot determine that the Property is vacant or abandoned during the period of the automatic stay, the Servicer must document the servicing case binder with evidence that it timely contacted the attorney or trustee.

(f) *Conflicts with other law.* Nothing in this section shall require a Servicer to conduct an inspection when prohibited by applicable Tribal, Federal, State or local law.

§ 1005.737 Vacant Property procedures.

If the Servicer determines through an occupancy inspection or occupancy follow-up that the Property is vacant or abandoned, the Servicer must send a letter, via certified mail or other method providing delivery confirmation, to all Borrowers at the Property address, or other known address of Borrower, informing them of the Servicer's determination that the Property is vacant or abandoned. This letter must include the Servicer's contact information.

(a) If occupancy is verified through the delivery confirmation, the Servicer shall continue pursuing collection efforts required by § 1005.729 until the Servicer has the authority to proceed to First Legal Action.

(b) If the Servicer verifies through the delivery confirmation process that the Property is vacant or abandoned; then the Servicer shall:

(1) Commence first-time vacant Property inspection;

(2) Take appropriate property preservation and protection actions to secure and maintain the Property;

(3) For Properties on Trust Land, initiate Tribal First Right of Refusal notice under § 1005.757(a) within seven Days;

(4) For fee simple Properties, initiate First Legal Action within seven Days;

(5) Continue to perform vacant property inspections every 25-35 Days until the Default is cured, the Property is disposed of, or the bankruptcy court has granted approval for the Servicer to contact the Borrower or to take any required property preservation actions; and

(6) Retain documentation in the servicing case binder providing evidence of activities required by HUD in this section or otherwise directed by HUD.

(c) *Conflicts with other law.* Nothing in this section shall require a Servicer to communicate with a Borrower in a manner prohibited by applicable Tribal, Federal, or State law.

SERVICING DEFAULT SECTION 184 GURANTEED LOANS UNDER THE LOSS MITIGATION PROGRAM

§ 1005.739 Loss mitigation.

(a) The purpose of Loss Mitigation is to attempt to cure the Borrower's Default and minimize financial loss to HUD. Servicer must also comply with 12 CFR 1024.41 and any applicable Tribal, Federal, and State requirements.

(b) The Servicer must offer a Loss Mitigation option, if applicable to the Borrower and if practical under the circumstances, within 180 Days of the Date of Default.

(c) Loss mitigation options include:

- (1) A forbearance plan;
- (2) Assumption;
- (3) A loan modification;
- (4) Pre-foreclosure sale;
- (5) A deed-in-lieu/lease-in-lieu of foreclosure; or
- (6) Other options, as may be prescribed in Section 184 Program Guidance.

(d) A Loss Mitigation review shall, to the greatest extent possible, be based on a full financial assessment of the Borrower at time of Default, and the collection technique(s) must take into account the circumstances particular to each Borrower.

(e) HUD may prescribe conditions and requirements for the eligibility and appropriate use of Loss Mitigation options.

(f) Within 180 Days of Default, if the Borrower is offered a Loss Mitigation option, other than loan modification, and subsequently fails to meet the Loss Mitigation option requirements, the Servicer shall within the time period as may be established by Section 184 Program Guidance of the failure of the Loss Mitigation, determine whether Borrower should continue with the current Loss Mitigation option or reassess the Borrower for an alternate Loss Mitigation option.

(1) Upon completion of the Loss Mitigation assessment, the Servicer must notify the Borrower within two Days of the Loss Mitigation option failure and any possible additional Loss Mitigation options.

(2) The Borrower shall respond to the Servicer within seven Days and accept any offer of Loss Mitigation, or the Servicer will proceed with foreclosure or Tribal First Right of Refusal notice under § 1005.757(a).

(g) If the Borrower is satisfactorily performing under a Loss Mitigation option, other than a loan modification, at 180 Days after Default but subsequently fails to perform, the Servicer shall follow 12 CFR Part 1024 (Regulation X) and, for Trust Land, initiate Tribal First Right of Refusal notice under § 1005.757(a) within five Days of the Loss Mitigation option failure.

(h) Documentation must be maintained for the initial and all subsequent evaluations and resulting Loss Mitigation actions in the servicing case binder in accordance with § 1005.219(d)(2).

(i) A Servicer that is found to have failed to engage in and comply with Loss Mitigation as required under this subpart may be subject to enforcement action by HUD, including but not limited to sanctions under §§ 1005.905 and 1005.907.

§ 1005.741 Notice to Tribe and BIA – Borrower Default.

(a) When two consecutive Section 184 Guaranteed Loan payments are in Default or sixty Days after other Default under the Section 184 Guaranteed Loan, the Servicer shall provide notice of Default to:

(1) The BIA, for Section 184 Guaranteed Loan Property that is on Trust Land, in accordance with applicable requirements under 25 CFR Part 162; and,

(2) The Tribe, for any Section 184 Guaranteed Loan Property where a Borrower has provided consent of notification in accordance with § 1005.501(j).

(b) The Servicer shall continue exploring Loss Mitigation options, consistent with the requirements under this subpart, with the Borrower during the notification process to the Tribe or BIA.

§ 1005.743 Relief for Borrower in military service.

(a) *Postponement of principal payments.* If the Borrower is a person in “military service,” as such term is defined in the Servicemembers Civil Relief Act (50 U.S.C. 3901- 4043), the Servicer may, by written agreement with the Borrower, postpone for the period of military service and three Months thereafter any part of the Monthly payment which represents the Amortization of principal. The agreement shall contain a provision for the resumption of

Monthly payments after such period in amounts which will completely amortize the Section 184 Guaranteed Loan within the maturity as provided in the original loan term.

(b) *Forbearance.* Forbearance plans may be available to Borrowers in military service pursuant to § 1005.745(e).

(c) *Postponement of foreclosure.* If at any time during Default the Borrower is a person in “military service,” as such term is defined in the Servicemembers Civil Relief Act, the period during which the Borrower is in such military service shall be excluded in computing the period within which the Servicer shall commence First Legal Action to acquire the Property or Tribal notice under § 1005.757(a). No postponement or delay in the prosecution of foreclosure proceedings during the period the Borrower is in such military service shall be construed as failure on the part of the Servicer to exercise reasonable diligence in prosecuting such proceedings to completion as required by this subpart.

§ 1005.745 Forbearance plans.

(a) *General.* Forbearance plans are arrangements between a Servicer and Borrower that may allow for a period of reduced or suspended payments and specific terms for the repayment plan.

(b) *Informal forbearance.* Informal forbearance plans are oral agreements, where permitted under Tribal or State law, between a Servicer and Borrower allowing for reduced or suspended payments and may provide specific terms for repayment.

(1) *Eligibility.* The Servicer may offer an informal forbearance plan to a Borrower with a delinquent Section 184 Guaranteed Loan who is not experiencing a loss of income or an increase in living expenses that can be verified.

(2) *Duration.* The period shall be three Months or less.

(c) *Formal forbearance.* Formal forbearance plans are written agreements executed by the Servicer and Borrower, allowing for reduced or suspended payments and such plans may include specific terms for repayment.

(1) *Eligibility.* The Servicer may offer a formal forbearance plan when:

(i) The Borrower is not experiencing a loss of income or increase in living expenses that can be verified;

(ii) The Servicer determines that 85 percent of the Borrower's surplus income is sufficient to reinstate within six Months; or

(iii) If the Servicer determines that the Borrower is otherwise ineligible for other Loss Mitigation options but has sufficient surplus income or other assets that could repay the indebtedness.

(2) *Agreement.* The Servicer shall execute a written agreement with the Borrower outlining the terms and conditions of the formal forbearance. The Servicer must include in the formal forbearance agreement a provision for the resumption of Monthly payments on a date certain, with repayment in amounts which will completely reinstate the Section 184 Guaranteed Loan no later than the original maturity date. The Servicer must retain in the servicing case binder a copy of the written formal forbearance agreement postponing principal and interest payments.

(3) *Duration.* The repayment period shall be equal to or greater than three Months but not to exceed six Months, unless authorized by HUD.

(4) *Required documents.* The Servicer must obtain from the Borrower any necessary supporting documentation and retain this documentation in the servicing case binder.

(5) *Property condition.* The Servicer must conduct any review it deems necessary, including a property inspection, when the Servicer has reason to believe that the physical condition of the Property adversely impacts the Borrower's use or ability to support the debt as follows:

(i) Financial information provided by the Borrower indicating large expenses for Property maintenance;

(ii) The Servicer receives notice from local government or other third parties regarding Property condition; or

(iii) The Property may be affected by a disaster event.

(iv) If significant maintenance costs contributed to the Default or are affecting the Borrower's ability to make payments under the loan or formal forbearance agreement, the Servicer may provide in the formal forbearance agreement a period of loan forbearance during which repairs specified in the agreement will be completed at the Borrower's expense.

(d) *Special forbearance-unemployment.* The special forbearance-unemployment Loss Mitigation option is available when one or more of the Borrowers has become unemployed and the loss of employment has negatively affected the Borrower's ability to continue to make their Monthly Section 184 Guaranteed Loan payment.

(1) *Eligibility.* The Servicer must ensure that the Borrower meets all the following eligibility requirements:

(i) The Section 184 Guaranteed Loan must be at least three Months in Default.

(m) *Required listing disclosure.* The Servicer shall require the listing agreement between the seller and the agent/broker to include the following cancellation clause: “Seller may cancel this Agreement prior to the ending date of the listing period without advance notice to the Broker, and without payment of a commission or any other consideration if the Property is conveyed to HUD or the Holder. The sale completion is subject to approval by the Servicer and HUD.” This section is not applicable to Property on Trust Land unless a HUD-approved real estate broker/agent is utilized.

(3) *Back-up offers.* Once an offer has been submitted to the Servicer for approval, the real estate broker/agent must retain any offer that the seller elects to hold for "back-up" until a determination has been made on the previously submitted offer.

The net sale proceeds must conform to the requirements on the Pre-Foreclosure Sale Approval to Participate Agreement.

(iii) Sign the pre-foreclosure sale Addendum on or before the date the pre-foreclosure sale transaction closes, unless explicitly prohibited by Tribal or State statute.

(4) *Satisfaction of debt.* Upon receipt of the portion of the net sale proceeds designated for Section 184 Guaranteed Loan satisfaction, the Servicer must apply the funds to the outstanding balance and discharge any remaining debt, release the lien in the appropriate jurisdiction, and may file a Claim.

(5) *Discharge of junior liens.* The Servicer must verify the pre-foreclosure sale will result in the discharge of junior liens as follows:

(i) If the Borrower has the financial ability, the Borrower must be required to satisfy or otherwise obtain release of liens.

(ii) If no other sources are available, the Borrower may obligate up to a maximum amount from sale proceeds towards discharging the liens or encumbrances, such maximum amount will be prescribed by HUD.
