F.1 Overview

The HOME program office has revised its setup and completion forms so that they reflect the implementation of HOME ROCS!, effective in IDIS Version 8.0 (March 18, 2004). The previous forms have been consolidated and reorganized by tenure type. There are four forms (one for each tenure type), and each form encapsulates both set up and completion processes and both single and multi-address activities.

We make these forms available to you for your convenience; they are not official HUD forms.
