

Tab 3
Proposed Regulation for Minimum Funding

1000.----What happens if data sources for the IHBG formula are not available for a Tribe?

~~In the event the Tribe data sources are not available from the U.S. Decennial Census or any other source, the Tribe may have an opportunity to request from HUD up to \$50,000.00 to gather data acceptable to HUD to demonstrate and justify the affordable housing need formula allocation for the Tribe.~~

1000.328

What is the minimum IHBG amount that a Tribe may receive under the need component of the formula?

The minimum block grant allocation in any year to a Tribe under the need component of the NAHASDA allocation formula shall equal ~~0.004817%:019%~~ of the total block grant ~~need~~ **available for** distribution for that year **after set asides**, provided that any Tribe receiving \$~~500~~**200**,000.00 or more in FCAS funding shall not be eligible for this supplemental allocation, and provided further that a Tribe must demonstrate need of any households at or below 80% of median income to be eligible for this block grant minimum funding level.

Consensus reached at 4:18pm 1/15/04

Exact percentage to be determined to be equal to \$50,000 based on Final FY2004 Allocation available for distribution. Also note that this does not exclude umbrella organizations.
