GRPCA Attachments except D.pdf
GRPCA Att D Blank Master v1_00.xlsm

HUD's Green Retrofit Program for Multifamily Housing (GRP) is up and running with tremendous participation from the affordable housing community. HUD began accepting applications on June 15 and began reviewing them this week. Assignments to PAEs are expected to start next week and then orders for Green Retrofit Physical Condition Assessments will commence a few days later. It's an exciting time to be greening affordable housing!

As you by now are no doubt aware, the Green Retrofit PCA statement of work has some differences from the Green Initiative PCA statement of work. And we also have new PCA providers and energy auditors providing their services. HUD has scheduled a webinar for Thursday, July 9th, from 2:30-5:00pm Eastern Time. Please plan to join that event.

More information will be forthcoming in the coming week. In the meantime, please familiarize yourself with the Green Retrofit PCA statement of work, including the new Attachment D that the GRPCA provider completes and submits in an EXCEL 2007 macro-enabled file (.xlsm). We will achieve a better outcome from our July 9th webinar if you are fully informed as to the requirements in the statement of work and have your questions ready for discussion. To this email, the following three files are attached:

- GRPCA Statement of Work and Contractor's Qualifications
- Attachments A, B, C, E, F, and G (all attachments except D)
- Attachment D (EXCEL 2007 macro-enabled file)

These files are also available for download through the 'Green Retrofit Program' link at OAHP's Resource Desk (www.oahp.net).
